Abstract13

List of Figures 15

List of Abbreviations 17

Chapter 1: From Cannes to Edinburgh – Entering Dataist Modernity 21

1. Imagining urban-regional futures 21

2. Technoscience and urban-regional planning 25

3. Studying projective agency in the Edinburgh city region 27

 3.1. Research questions 30

 3.2. Summary 31

 3.3. Outline of book 32

Chapter 2: The Interplay of Expectations and Expertise in Urban-Regional Innovation Economies 37

1. Introduction 37

2. Theoretical framework 38

 2.1. Capitalism’s temporal order and decision-making 38

 2.2 Data-driven innovation and the city 48

 2.3 The relationship between scientific expertise and democracy 62

3. Conclusion 75

Chapter 3: Studying Projective Agency in the Edinburgh City Region.....77

1. Introduction77

2. Research journey..... 78

2.1. Project development 78

2.2. Data generation 88

2.3. Revisiting the initial research questions 96

2.4 Data analysis 99

2.5 Ethical considerations and risk assessment 101

3. Conclusion 103

Chapter 4: Constructing Edinburgh’s Innovation Apparatus105

1. Introduction105

2. Conceptualising urban-regional innovation106

2.1. Imagining urban-regional futures107

2.2. What about the urban?109

2.3. Innovation *apparatus*111

3. Grasping Edinburgh’s innovation apparatus 115

3.1. Scales 116

3.2. Identities126

3.3. Agencies..... 133

4. Conclusion 139

Chapter 5: Solution in Search of a Problem?

Data-Driven Innovation and the Politics of Certainty

in the Edinburgh City Region143

1. A “mad god’s dream”?..... 143

2. Co-producing science and the city147

3. The city and the university.....150

3.1. Economic footprint.....152

3.2. The CRD and the University of Edinburgh154

4. Bringing Edinburgh’s innovation apparatus into being157

4.1. The Gang of Four157

4.2. Constructing data-driven futures..... 161

4.3. Three modes of apoliticisation 163

5. Conclusion – a “politics of certainty”?172

Chapter 6: Competing Imaginaries of the 21st Century University	175
1. Introduction	175
2. From Humboldtian ideal to economic engine	176
3. Scale and imagination	179
3.1. Rediscovering the city region, reimagining the innovation state	179
3.2. The “knowledge economy”	181
4. Competing imaginaries of the 21st century university	184
4.1. The “ivory tower”	185
4.2. The economic agent	186
4.3. The civic institution	188
4.4. Clashing ideals	189
4.5. Institutional eclecticism	193
4.6. Satellite or planet?	198
5. Conclusion – lost in translation?	200
 Chapter 7: From Simple to “Dataist Modernity” – Technoscience and the Quest for Control	 203
1. Back to the future	203
2. Key findings and analytical starting points	205
3. Technoscience and planning	208
3.1. The city as machine	209
4. The neo-scientisation of urban-regional planning	223
4.1. Simple and reflexive modernity	224
4.2. Moving towards a “dataist” modernity	226
4.3. Neo-scientisation?	234
5. Conclusion – entering “dataist modernity”?	236
 Chapter 8: The View after the Questions	 239
1. Change is in the air	239
2. Contributions	241
3. Limitations	244
4. Reflection	245
4.1. The actors	246
4.2. The institution	248
4.3. The bigger picture	250
