Methods

Taxonomic part

Key to adults of European Empididae, subfamilies Hemerodromiinae and Clinocerinae	15
Subfamily Hemerodromiinae	15
Key to genera of larvae of European Hemerodromiinae	15
Key to genera of pupae of European Hemerodromiinae	16
Key to genera of adults of European Hemerodromiinae	16
Genus <i>Chelipoda</i> Macquart, 1823	16
Key to males of <i>Chelipoda</i> Macquart	18
Subgenus <i>Phyllodromia</i> Zetterstedt, 1837	19
Genus <i>Metachela</i> Coquillett, 1903	20
Genus <i>Hemerodromia</i> Meigen, 1822	21
Key to males of <i>Hemerodromia</i> Meigen	22
Genus <i>Chelifera</i> Macquart 1823	30
Key to males of <i>Chelifera</i> Macquart species-groups	32
The <i>Chelifera precatoria</i> -group	33
The <i>Chelifera flavella</i> -group	36
The <i>Chelifera astigma</i> -group	39
The <i>Chelifera monostigma</i> -group	40

Subfamily Clinocerinae	49
Key to adults of genera of European Clinocerinae	49
Genus <i>Dolichocephala</i> Macquart 1823	50
Key to males of <i>Dolichocephala</i> Macquart species-groups	51
The <i>Dolichocephala cavatica</i> -group	52
The <i>Dolichocephala guttata</i> -group	52
The <i>Dolichocephala irrorata</i> -group	55
The <i>Dolichocephala ocellata</i> -group	57
Genus <i>Roederiodes</i> Coquillett, 1901	59
Genus <i>Clinocerella</i> Engel, 1918	61
Key to males of <i>Clinocerella</i> Engel in Central and North Europe ...	61
Genus <i>Trichoclinocera</i> Collin, 1941	63
Genus <i>Clinocera</i> Meigen, 1803	64
Key to males of <i>Clinocera</i> Meigen species-groups	65
The <i>Clinocera stagnalis</i> -group	65
The <i>Clinocera nigra</i> -group	68
The <i>Clinocera appendiculata</i> -complex	69
Genus <i>Kowarzia</i> Mik, 1881	71
Key to males of <i>Kowarzia</i> Mik	72
Genus <i>Bergenstammia</i> Mik, 1881	76
Key to males of <i>Bergenstammia</i> Mik species-groups	76
The <i>Bergenstammia multiseta</i> -group	77
The <i>Bergenstammia nudipes</i> -group	79
Genus <i>Phaeobalia</i> Mik, 1881	83
Key to males of the <i>Phaeobalia</i> Mik species-groups	84
The <i>Phaeobalia varipennis</i> -group	85
The <i>Phaeobalia inermis</i> -group	86
The <i>Phaeobalia trinotata</i> -group	88
Genus <i>Wiedemannia</i> Zetterstedt, 1838	91
Key to the males of the <i>Wiedemannia</i> Zetterstedt species-groups ...	93
The <i>Wiedemannia lamellata</i> -group	93
The <i>Wiedemannia rhynchops</i> -group	95
The <i>Wiedemannia bistigma</i> -group	100
The <i>Wiedemannia zetterstedti</i> -group	102
The <i>Wiedemannia wachtli</i> -group	104
The <i>Wiedemannia queyrasiana</i> -group	105
The <i>Wiedemannia phantasma</i> -group	107
The <i>Wiedemannia hygrobia</i> -group	109
The <i>Wiedemannia lota</i> -group	113
