1	Introduction	1
1.1	Problem Statement	1
1.2	Research Question and Structure of the Thesis	3
2	Theoretical Foundations: Ambidexterity as an Explanation for Firm Performance and Survival	7
2.1	Ambidexterity: Conceptualization and Evidence	7
2.1.1	Origins and Development of Ambidexterity Research	8
2.1.2	Ambidexterity as the Balancing of Exploration and Exploitation	9
2.1.3	Modes of Balancing Exploration and Exploitation	13
2.1.3.1	Internal Balancing Modes: Structural, Contextual, and Sequential Ambidexterity	14
2.1.3.2	External Balancing Modes: Portfolio Ambidexterity & Within Alliance Ambidexterity	20
2.1.3.3	Combining Internal and External Balancing Modes: Inter-Organizational Ambidexterity	23
2.1.3.4	Summary: Ambidexterity Modes	26
2.1.4	Interim Conclusion	29
2.2	Ambidexterity in Resource-Constrained Organizations	29

2.2.1	Definitions and Key Characteristics: RCOs, SMEs, and Startups as Examples	30
2.2.2	Evidence on RCOs, Ambidexterity, and Performance ...	31
2.2.2.1	Systematic Literature Review	31
2.2.2.2	Ambidexterity and RCO Performance: Inconsistent Results	33
2.2.2.3	Resource Constraints as Challenges for RCOs and Well-Studied Ambidexterity Modes	44
2.2.3	Interim Conclusion	45
3	Digression: Inter-Organizational Ambidexterity—Research on Inter-Organizational Alliances	47
3.1	Conceptual Foundations, Relevance, and Antecedents of Success	47
3.2	Corporate-Startup Collaboration	48
3.3	SME-Startup Collaboration	50
3.4	Cooperative Behavior of SMEs, Startups, and Corporates	51
3.5	Relevance of Alliance Research for Inter-Organizational Ambidexterity	51
4	Empirical Study: Methodology	53
4.1	Research Objectives	53
4.2	Research Design: Comparative Multiple-Case Study Approach	54
4.3	Sampling and Case Selection Methods	56
4.4	Data Collection	59
4.5	Data Analysis	71
4.5.1	Coding	71
4.5.2	Within-Case Analysis & Cross-Case Analysis	72
5	Case Studies: Ambidextrous Collaborations of RCOs: Corporate-Startup and SME-Startup Alliances	75
5.1	Within-Case Analysis: How, When, and Why the Case Companies Engage in Ambidextrous Alliances	75
5.1.1	Case 1: PropertyCloud—Group Bank	76
5.1.2	Case 2: FinTech1—S&B Bank	89
5.1.3	Case 3: Easy Solar—ENW	98
5.1.4	Case 4: BauMeister—NTS	107

5.1.5	Summary of Analyzed Cases	116
5.2	Cross-Case Analysis of Ambidextrous Alliances	116
5.2.1	Characteristics of Analyzed Ambidextrous Alliances	124
5.2.2	Motives of Analyzed Ambidextrous Alliances: Exploration & Exploitation	125
5.2.3	Task Allocation & Responsibilities / Coordination & Integration in Analyzed Ambidextrous Alliances	129
5.2.4	How to Explain Success of Ambidextrous Alliances in RCOs: Explanatory Conditions and Mechanisms	130
5.2.4.1	Explanatory Conditions	130
5.2.4.2	Mechanisms	137
5.2.4.3	Empirical Model	153
5.3	Generalizability of the Empirical Model to a More Restrictive Context: Results of SME-Startup Sample	154
5.3.1	Explanatory Conditions	155
5.3.2	Mechanisms	161
5.3.3	Conclusion on the Generalizability of the Results and the Empirical Model	163
5.4	Conclusion on Case Studies	164
6	Discussion	165
6.1	Theoretical Contributions	165
6.1.1	Contributions to Ambidexterity Research	166
6.1.2	Contributions to Resource Dependence Theory	170
6.1.3	Contributions to Alliance Research	173
6.2	Managerial Implications	178
6.3	Limitations and Directions for Future Research	184
7	Conclusion	187
