

Table of Contents

Language and Computation

Predicting the Position of Attributive Adjectives in the French NP	1
<i>Gwendoline Fox and Juliette Thuilier</i>	
Abductive Reasoning for Continual Dialogue Understanding	16
<i>Miroslav Janíček</i>	
SCA: Phonetic Alignment Based on Sound Classes	32
<i>Johann-Mattis List</i>	
Embodied Quantifiers	52
<i>Simon Paww and Michael Spranger</i>	
Ranked Multidimensional Dialogue Act Annotation	67
<i>Marcin Włodarczak</i>	

Logic and Computation

The Good, the Bad, and the Odd: Cycles in Answer-Set Programs	78
<i>Johannes Klaus Fichte</i>	
Distributed Knowledge with Justifications	91
<i>Meghdad Ghari</i>	
Epistemic Logic, Relevant Alternatives, and the Dynamics of Context	109
<i>Wesley H. Holliday</i>	
Towards a Generalization of Modal Definability	130
<i>Tin Perkov</i>	
Modeling Semantic Competence: A Critical Review of Frege's Puzzle about Identity	140
<i>Rasmus K. Rendsvig</i>	
Comparing Inconsistency Resolutions in Multi-Context Systems	158
<i>Antonius Weinzierl</i>	

Logic and Language

Vague Determiner Phrases and Distributive Predication	175
<i>Heather Burnett</i>	

The Syntax and Semantics of Evaluative Degree Modification 195
Hanna de Vries

A Kripkean Solution to Paradoxes of Denotation 212
Casper Storm Hansen

Trust Games as a Model for Requests 221
Jason Quinley

Author Index 235
