Preface — VII

Foreword — IX

A brief professional profile of Prof. Béla Török — XI

Hina Anwar, Akbar Ali, Muhammad Ibrahim, Amjad Hussain,
and Nadia Akram

Chapter 1

Naturally occurring bioactive five-membered heterocycles — 1

Gullapelli Kumaraswamy and Vaidya Jayathirtha Rao

Chapter 2

Photochemically mediated synthesis of five-membered heterocycles — 31

Seema Kothari, Khushbu Sharma, Rakshit Ameta, and Suresh C. Ameta

Chapter 3

Ultrasound-assisted synthesis of five-membered heterocycles — 93

Yadavalli Venkata Durga Nageswar, Katla Ramesh, and Katla Rakhi

Chapter 4

Microwave-assisted synthesis of tetrazoles — 123

Debabrata Barman, Ramlal Baidya, Sabir Ali Molla, and Dilip K. Maiti

Chapter 5

Organocatalyzed synthesis of five-membered heterocycles — 141

Chetna Ameta, Mukesh Kumar, Dharmendra, Rakshit Ameta,
and Suresh C. Ameta

Chapter 6

Solvent-free synthesis of five-membered heterocycles — 177

Jeyaraj Preety, Thulasidaran Purushothaman, Deivanayagam Paradesi,
Karthikeyan Sekar, Sabbasani Rajasekhara Reddy, and Baburaj Baskar

Chapter 7

**Sustainable synthesis of bioactive functionalized five-membered
heterocycles via flow chemistry — 211**

Anindya S. Manna, Sandip Das, Tanmoy Ghosh, Rajesh Nandi, Antara Roy,
Nilay Karchaudhuri, Narendra Nath Ghosh, and Dilip K. Maiti

Chapter 8

Green synthesis of bioactive pyrroles — 243

Sabir Ali Molla, Ankur Basak, Tanmay K. Pati, and Dilip K. Maiti

Chapter 9

Green synthesis of bioactive indoles — 283

Sabbasani Rajasekhara Reddy, M. Sathya Naga Bala Pravallika, Pavani Yasam,
Sathi Bhulakshmi, Chun-Cheng Lin, Rajagopal Desikan, K. Shiva Kumar,
and Baburaj Baskar

Chapter 10

**Sustainable contemporary methods for the construction
of oxazole-decorated heterocycles — 315**

Paramita Pattanayak, H. Sai Keerthana, Appanapalli N. V. Satyanarayana,
Samiran Saha, and Tanmay Chatterjee

Chapter 11

**Recent advances in the metal-free synthesis of novel isoxazoles
and evaluation of their biological activities — 341**

Rajesh Nandi, Subhasis Pal, Anindya S. Manna, and Dilip K. Maiti

Chapter 12

Green synthesis of bioactive thiazoles — 393

Rajjakfur Rahaman, Debanjana Bag, Tanjul Hoque, and Dilip K. Maiti

Chapter 13

Green synthesis of bioactive carbazoles — 413

Sabbasani Rajasekhara Reddy, Jyothylakshmi Jayakumar, Ashley Saju Mattam,
and Ayisha Thadathil Abdul Zakeer

Chapter 14

**Sustainable contemporary methods for the construction
of cyclopentene-decorated five-membered heterocycles — 441**

Aparna Das and Bimal Krishna Banik

Chapter 15

Ascorbic acid-mediated synthesis of five-membered heterocycles — 475

Frenki Mahato, Sumit Ghosh, Asim Kumar Ghosh,
and Alakananda Hajra

Chapter 16

Green synthesis of bioactive imidazo[1,2-*a*]pyridines — 493

Thiago Anjos, João M. Anghinoni, Mateus W. Rambo, Eder J. Lenardão,
Ricardo F. Schumacher, and Filipe Penteado

Chapter 17

**Photon- and electron-mediated alternative synthesis of selenium-decorated
five-membered heterocyclic compounds — 511**

Yadavalli Venkata Durga Nageswar, Katla Ramesh, and Katla Rakhi

Chapter 18

**Synthesis of selenium-containing bioactive five-membered heterocyclic
compounds under green conditions: a decade update — 541**

Musrat Shaheen, Akbar Ali, Muhammad Ibrahim, Muhammad Saeed,
and Atta Ul Haq

Chapter 19

Industrial applications of five-membered heterocycles — 573

Index — 613
