Foreword	XV
1 What is AI and How Do Data Science and Data Analytics Differ?	1
<i>Gabriele Bolek-Fügl</i>	
1.1 The Cornerstones of AI	2
1.1.1 Data	3
1.1.2 Algorithms	5
1.1.3 Computing Power	6
1.1.4 Storage	6
1.1.5 Measurement and Model Optimization	7
1.1.6 Interfaces for Interaction	7
1.1.7 Security and Data Protection	8
1.2 Data Science and Data Analytics	9
1.3 Development of AI in SMEs	10
2 Geopolitics of Artificial Intelligence	15
<i>Veronica Cretu</i>	
2.1 Emerging Landscape of AI Regulations	16
2.2 The Race for AI Regulation – the Big Three	20

3 AI Act: Rights and Obligations 29
Gabriele Bolek-Fügl, Veronica Cretu, Julia Fuith, Merve Taner, Natascha Windholz, Carina Zehetmaier

3.1 Introduction to the AI Act 30

3.1.1 Definition of AI systems. 34

3.1.2 Roles of Natural or Legal Persons 36

3.1.3 Market Launch Phases. 37

3.1.4 Terms for the Use of AI Systems 38

3.1.5 Data-related Designations. 40

3.1.6 AI Literacy. 43

3.2 AI Literacy for Providers. 44

3.2.1 Introduction 44

3.2.2 Definition of AI Literacy 47

3.2.3 AI Literacy and the Provisions of the AI Act 48

3.2.4 Proposal for a Maturity Framework for AI providers 50

3.3 Risk-based Approach 55

3.3.1 Prohibited AI Systems 55

3.3.2 High-risk AI Systems. 61

3.3.2.1 Classification of AI as a High-risk AI System 61

3.3.2.2 Annex III. 65

3.3.2.3 Requirements for High-risk AI Systems 71

3.4 Fundamental Rights Impact Assessment. 86

3.4.1 AI Act and Fundamental Rights. 86

3.4.1.1 Implementation of the Fundamental Rights Impact Assessment. 88

3.4.1.2 Impact Assessment as Part of AI Governance 97

3.4.1.3 Existing Tools for Fundamental Rights Impact Assessments 97

3.5 Harmonized Standards, Conformity Assessment, Certificates and Registration 99

3.5.1 Harmonized Standards and CE Marking. 101

3.5.2 Conformity Assessment Procedure. 104

3.5.3 Exemptions from the Conformity Assessment Procedure 107

3.5.4 EU Declaration of Conformity 108

3.5.5 Registration. 109

3.6 Transparency Obligations in the AI Act. 110

3.6.1 Guidelines for the Implementation of Transparency Obligations
for Data and Data Management 112

3.6.2 Guidelines for the Implementation of the Transparency
Provisions Provided for in Art. 13 AI Act 115

3.6.3 Guidelines on the Implementation of Transparency Obligations
for Providers and Suppliers of Certain AI Systems and
GPAI Models 116

3.7 General-purpose Artificial Intelligence (GPAI). 118

3.7.1 ChatGPT: the Start of an “AI revolution”? – Implications for the
Legislative Process 118

3.7.2 Inclusion of GPAI in the AI Act. 120

3.7.3 AI Models and AI Systems for General Use. 121

3.7.3.1 Classification Rules for GPAI Models 121

3.7.3.2 Commitments 123

3.7.4 GPAI Models with Systemic Risk 126

3.7.4.1 Classification Rules for General-Purpose AI Models with
Systemic Risk according to Art. 51 AI Act 126

3.7.4.2 Obligations for GPAI Models with Systemic Risk under
Article 55. 127

3.7.5 GPAI Models and High-risk Systems. 128

3.7.6 Implementation Period and Penalties 129

3.8 AI Sandboxes 130

3.8.1 Setup and Functionality 130

3.8.2 Further Processing of Personal Data 133

3.8.3 Tests Outside of AI Sandboxes 134

3.8.4 Consent for Tests Outside Sandboxes. 136

3.8.5 Facilitation for SMEs 136

3.9 Authorities 137

3.9.1 Notifying Authority. 137

3.9.2 Conformity Assessment Bodies and Notified Bodies 138

3.10 Governance in the AI Act. 141

3.10.1 AI Office. 141

3.10.2 AI Board. 141

3.10.2.1 Composition. 141

3.10.2.2 Tasks of the AI Board. 142

3.10.3 Advisory Forum 143

3.10.4 Scientific Panel. 144

3.10.5 National Authorities..... 144

3.10.6 EU Database for High-risk AI Systems 145

3.10.7 Post-market Monitoring..... 145

3.10.8 Sharing Information on Serious Incidents 146

3.10.9 Law Enforcement 146

3.10.10 Confidentiality of Procedures..... 147

3.10.11 Procedures at National Level for dealing with AI Systems
presenting a Risk. 148

3.10.12 Procedures for AI Systems Classified as Non-high-risk AI
by the Provider 149

3.10.13 Compliant AI Systems which present a Risk..... 150

3.10.14 Formal Non-conformity..... 150

3.10.15 Legal Remedy..... 150

3.10.15.1 Right to a Explanation of Decision-making 151

3.10.15.2 Legal Remedies for GPAI..... 151

3.11 Penalties and Sanctions..... 152

3.12 SMEs and Start-ups in the AI Act..... 155

3.12.1 Facilitations and Exemptions for SMEs and Start-ups 155

3.12.2 Checklist: Launching a New AI System in Accordance
with the AI Act 158

4 Data Protection 165

Gabriele Bolek-Fügl

4.1 General Requirements of the GDPR 167

4.1.1 The Principles for Processing Personal Data 169

4.1.2 Lawfulness of Processing 173

4.1.3 Obligation to Provide Information where Personal Data
is Collected 174

4.1.4 Rights of the data subjects..... 176

4.2 Privacy by Design 177

4.2.1 Implementation..... 177

4.2.2 Responsibility for Processing in Compliance with the Law 179

4.3 Requirements for Testing Data 180

4.4 Automated Decision Making 182

4.5 Guidance and Recommendations on GDPR and AI from Data Protection Authorities 184

 4.5.1 Publications of the European Data Protection Board (Excerpt). . . . 185

 4.5.2 DSK Recommendations 187

 4.5.3 The State Commissioner for Data Protection and Freedom of Information Baden-Württemberg. 191

 4.5.4 Hamburg Commissioner for Data Protection on LLMs 191

 4.5.5 FAQ of the Austrian Data Protection Authority 194

4.6 ChatGPT and the Data Protection Complaint from noyb. 195

5 Intellectual Property 197

Alexandra Ciarnau

5.1 Protection of AI and its Components 198

 5.1.1 Copyrights and Ancillary Copyrights 200

 5.1.1.1 General Information 200

 5.1.1.2 Individually Developed AI Systems 200

 5.1.1.3 Individually Developed AI Models 200

 5.1.1.4 Input and Training Data Pool 201

 5.1.1.5 User Documentation and User Manual 201

 5.1.1.6 Rights and Claims of the Author 202

 5.1.1.7 Granting of Rights. 203

 5.1.1.8 Open Source Software 203

 5.1.1.9 Patent and Utility Model Protection 204

 5.1.2 Trade Secret Protection 205

5.2 Legal IP Compliance when Using AI. 206

 5.2.1 AI Input 206

 5.2.1.1 IP-protected Input Data. 206

 5.2.1.2 AI Act Requirements for AI Systems 208

 5.2.2 AI Output. 209

5.3 Checklist 211

5.4 Reference Table Legislation 212

6 AI and IT Contract Law 215

Alexandra Ciarnau, Merve Taner

6.1 Licensing of Standard Software 217

6.2 Software Development 220

6.3 Software Maintenance..... 221

6.4 Open Source Software 223

6.4.1 Open Source AI – Paving the Way for the Future? 223

6.4.2 Definition of Open Source and Legal Basis..... 225

6.4.3 Legal Problem Areas in Connection with Open Source According to Existing Legal Bases..... 226

6.4.4 Open Source Software Strategy of the European Commission 230

6.4.5 Exceptions for Open Source in the AI Act 230

6.5 Hardware Purchase and Maintenance 233

6.6 General Information on Liability 233

6.7 Reference Table Legislation 237

7 Private Sector 239

Kristina Altrichter, Gabriele Bolek-Fügl, Karin Bruckmüller, Alexandra Ciarnau, Julia Eisner, Isabella Hinterleitner, Manuela Machner, Renate Rechinger, Carina Zehetmaier, Klaudia Zotzmann-Koch

7.1 AI – from Prejudice to Discrimination..... 239

7.1.1 Right to Equality and Non-discrimination 244

7.1.2 How Prejudices Find their Way into AI 246

7.1.2.1 How the AI Act Addresses Discrimination 249

7.1.2.2 Can We Fix Bias in AI? 252

7.2 AI in the Financial Sector 254

7.2.1 Exceptions to the Scope of Application 255

7.2.2 Prohibited AI Systems 256

7.2.3 High-risk AI Systems..... 259

7.2.3.1 Classification 259

7.2.3.2 Refutation of the High-risk Property 262

7.2.3.3 Interactions between Financial Regulations and the AI Act 263

7.2.4 General Purpose AI Systems/Models 264

7.2.5 Certain AI Systems 265

7.2.6 Authority Competencies 265

7.3 AI in the Insurance Industry 266

7.3.1 Dynamic Underwriting and Risk Assessment in Health Insurance 268

7.4 AI and Whistleblowing 270

7.4.1 Whistleblower for the AI Category 274

7.4.2 Areas of Application of AI in the Implementation of the Whistleblowing Directive 276

7.4.2.1 Challenges in the Whistleblowing Process 276

7.4.2.2 Procedure of the Whistleblowing Use Case 279

7.5 Use of AI in Future and Existing Employment Relationships..... 282

7.5.1 Writing Job Ads with AI 284

7.5.2 AI Support for Applicant Selection by Means of Video Analysis [4] 285

7.6 AI in Education 288

7.6.1 Roles in the AI Act 289

7.6.2 AI Literacy (Art. 4 AI Act) 290

7.6.3 AI Systems with “Limited” Risk (Art. 50 AI Act) in Education 291

7.6.4 High-risk AI Systems in Education 292

7.6.5 Prohibited AI Systems in Education 295

7.7 AI in Healthcare 296

7.7.1 Example: AI Diagnosis of Skin Diseases 297

7.7.1.1 High-risk AI Classification within the Meaning of the AI Act 298

7.7.1.2 Requirements and Obligations of the Hospital Deployer According to the AI Act 298

7.8 AI in Advertising 302

7.8.1 Legal Requirements for AI in Advertising 302

7.8.1.1 Prohibited AI Systems 302

7.8.1.2 Overlaps with Other Laws 303

7.8.1.3 Data Trading 304

7.8.1.4 Personalization 305

7.8.2 Energy Consumption and Sustainability 305

7.8.3 Best Practice: Generative AI in Creation 306

7.9 Tourism 307

7.9.1 Use case: Operational efficiency 309

7.9.2 Use Case: Guest Experience 315

7.9.3 Use Case: Smart Companies 319

7.10 AI in Autonomous Driving 323

7.10.1 Austrian & International Legislation 324

7.10.2 Development of Autonomous Driving Functions 326

7.10.3 The AI Act and Autonomous Driving 327

8 Public Sector 329
Kristina Altrichter, Karin Bruckmüller, Veronica Cretu, Theresa Tisch, Natascha Windholz

8.1 “Public Decision Making” and AI 329

8.1.1 Use Cases in Annex III AI Act 330

8.1.2 Example: Allocation of Social Benefits 330

8.1.3 Example: Allocation of Kindergarten Spots 332

8.2 AI in Criminal Prosecution 333

8.2.1 Use of Biometric Real-time Remote Identification Systems 334

8.2.2 Implementation Obligations of the Member States 336

8.3 AI in Elections and Democratic Processes. 337

8.3.1 Emerging Discussions about the Impact of AI on Democracy and Electoral Processes 337

8.3.2 How Should AI be Defined in the Context of Elections? 340

8.3.3 Exploiting Opportunities and Minimizing Risks through the Use of AI 340

8.3.4 AI and Election Integrity: a Hypothetical Analysis of the Cambridge Analytica Scandal in the Context of the AI Act. 347

8.4 AI in the NIS Sector. 351

8.4.1 Introduction NIS and NIS 2. 351

8.4.1.1 NIS2 352

8.4.2 Importance of NIS2 for the Supply Chain 353

8.4.3 Use of AI in NIS Companies 354

8.4.3.1 Annex I AI Act 355

8.4.3.2 Annex III AI Act. 356

9 Ethics 359
Gabriele Bolek-Fügl, Valerie Hafez, Sabine Singer

9.1 Ethical Guidelines for Trustworthy AI. 359

9.1.1 What is it About? 359

9.1.2 Ethical Principles of the Guidelines 361

9.1.3 Core Requirements 361

9.1.4 Methods for Implementing the Core Requirements. 365

9.1.5 Tools for Implementation 366

9.2 Relevant AI Guidelines & Policies 369

9.2.1 OECD Council Recommendation on Artificial Intelligence. 369

9.2.2	The Executive Order on the Safe, Secure, and Trustworthy Development and Use of Artificial Intelligence.....	372
9.2.3	Compliance Tools for Many Occasions.....	375
9.2.4	Artificial Intelligence Risk Management Framework	378
9.2.5	Further Formative Ethical Guidelines	381
9.3	EU and Global Bodies, Boards and Committees.....	383
9.4	From Digital Humanism to a Value-based AI System.....	385
9.4.1	Value-based Engineering.....	386
9.4.2	Advantages and Strategic Importance of Value-based Engineering	389
9.4.3	Conclusion	391
10	Governance in the Company	393
	<i>Gabriele Bolek-Fügl, Karin Bruckmüller, Veronica Cretu, Valerie Hafez, Klaudia Zotzmann-Koch</i>	
10.1	Practical Example: Assessment of a Use Case in Accordance with the AI Act.....	393
10.1.1	Description of the Use Case: AI-supported Fire Detection and Alarm System.....	393
10.1.2	How do You Start?.....	394
10.1.3	Conclusion	402
10.2	Risk Management, Human Supervision and Useful Tools.....	403
10.2.1	Embedding Governance in the Life Cycle of an AI System.....	404
10.2.2	Recognizing and Addressing Risks	405
10.2.2.1	Approaches to Risks, Incidents, Accidents and Affected Parties	406
10.2.2.2	Measuring Risks	408
10.2.2.3	Responsibility in the Event of Incidents and Accidents ..	409
10.2.2.4	Perceiving and controlling the unknown.....	409
10.2.3	Human Supervision	410
10.2.3.1	Break Down Supervision	412
10.2.3.2	Develop and Maintain Supervisory Skills.....	413
10.2.3.3	Making Supervision Context-sensitive	413
10.2.3.4	Involving External Parties in Supervision	414
10.2.3.5	Human Supervision: Pros and Cons.....	415
10.2.4	Conclusion	416

10.3 Data and Knowledge Management..... 418

10.3.1 Pilars of the Data Governance Framework 424

10.4 Audit of Artificial Intelligence 428

10.4.1 Fundamentals of the Audit..... 429

10.4.2 Audit Team 430

10.4.3 Difference Between Risk Management and Audit..... 431

10.4.4 Helpful Audit Checklists 432

10.4.5 Example of a Simple AI Audit Checklist 434

10.5 Code of Conduct..... 438

10.5.1 Example of a Code of Conduct for the Use of Artificial Intelligence
in the Organization..... 441

10.5.2 Further Considerations on the AI Code of Conduct 445

10.6 AI and Sustainability 446

10.6.1 ESG – Environmental, Social and Corporate Governance 447

10.6.2 Diversity, Inclusion, Justice 448

10.6.3 Benefits for the Environment 449

10.6.4 High-risk AI Systems 450

10.6.5 Supply Chains 451

10.6.6 Conclusion 451

11 The Authors 453
