Preface — V

Foreword — VII

List of contributing Authors — XIII

Mohammad Jaber Darabi Mahboub and Gregory S. Patience

1 Conversion of glycerol to acrylic acid — 1

Jean-Luc Dubois and Serge Kaliaguine

2 Alternative routes to more sustainable acrylonitrile: biosourced acrylonitrile — 31

Yacine Boumghar and Mohammed Benyagoub

3 Biobased levulinic acid production — 63

Petr Stavárek, Farzad Lali and Jean-Luc Dubois

4 Fatty nitrile esters hydrogenation for biosourced polyamide polymers — 77

Sonia García, Stephen Poulston and Petr Stavarek

5 Ni-free hydrogenation of natural products for the personal care industry: case study, squalene hydrogenation — 115

Svajus Joseph Asadauskas , Asta Grigucevičienė and Rolf Luther

6 High-performance hydraulic fluids from vegetable oils — 139

Tommaso Tabanelli, Alessandro Chiericato, Rita Mazzoni and Fabrizio Cavani

7 Biomass valorization: bioethanol upgrading to butadiene — 177

Rosaria Ciriminna, Luc Charbonneau and Mario Pagliaro

8 Biosourced polycarbonates — 201

Hoang Vinh Thang and Serge Kaliaguine

9 Organic cyclic carbonates synthesis under mild conditions — 213

Evan Terrell and Manuel Garcia-Perez

**10 Biomass selective pyrolysis, bio-oil separation and products
development: challenges and opportunities for green chemistry — 247**

Index — 279
