

# Contents

**Preface — VII**

**Forward — IX**

Bubun Banerjee, Manmeet Kaur, Aditi Sharma, Anu Priya,  
and Arvind Singh

## **Chapter 1**

**Some commercially available  $\beta$ -lactam antibiotics — 1**

Aparna Das and Bimal Krishna Banik

## **Chapter 2**

**Chemistry and biology of  $\beta$ -lactams as anticancer agents — 39**

Arruje Hameed, Razia Noreen, Kulsoom Ghulam Ali, Bushra Parveen, Abida Hassan,  
Sanobar Gull, Muhammad Abdul Qayyum, Hassam Mehmood, and Tahir Farooq

## **Chapter 3**

**Role of four-membered heterocycles in drugs and drug designing — 59**

Aparna Das, Ram Naresh Yadav, and Bimal Krishna Banik

## **Chapter 4**

**Synthesis of pyrrole-substituted  $\beta$ -lactams by diverse catalytic methods — 97**

Nirjhar Saha, Debmalya Datta, Soumili Biswas, and Asit K. Chakraborti

## **Chapter 5**

**Applications of greener methodologies in the synthesis of bioactive  
oxetanes — 115**

Gullapelli Kumaraswamy, and Vaidya Jayathirtha Rao

## **Chapter 6**

**Four-membered heterocycles via photochemical means — 149**

Sasadhar Majhi

## **Chapter 7**

**Applications of Paternò-Büchi reactions for the construction of four-  
membered heterocycles — 191**

**XIV — Contents**

Yadavalli Venkata Durga Nageswar, Katla Ramesh, and Katla Rakhi

**Chapter 8**

**Synthesis of four-membered heterocycles by microwave irradiation — 215**

Poulami Hota, Aranya Das, Sk Ajarul, and Dilip K. Maiti

**Chapter 9**

**Synthesis of four-membered heterocycles under electrolysis — 235**

Tanmoy Ghosh, Anindya S. Manna, Rajesh Nandi, and Dilip K. Maiti

**Chapter 10**

**Organocatalyzed synthesis of four-membered heterocycles — 249**

Sudipto Debnath, Prakash K. Mondal, Debasish Ghosh,  
and Dilip K. Maiti

**Chapter 11**

**Applications of four-membered heterocycles to construct higher-membered  
heterocycles — 269**

Maria Fatima, Akbar Ali, Muhammad Ibrahim, Samreen Gul Khan,  
and Muhammad Saeed

**Chapter 12**

**Industrial applications of four-membered heterocycles — 299**

**Index — 333**
