**Part I Introduction**

|          |                                                       |           |
|----------|-------------------------------------------------------|-----------|
| <b>1</b> | <b>Introduction .....</b>                             | <b>3</b>  |
| 1.1      | Introduction .....                                    | 3         |
| 1.2      | Motivation .....                                      | 6         |
| 1.3      | Problem Statement .....                               | 10        |
| 1.3.1    | Data Sharing .....                                    | 10        |
| 1.3.2    | Combining Knowledge Graphs and Machine Learning ..... | 13        |
| 1.4      | Research Questions .....                              | 13        |
| 1.5      | Research Objectives .....                             | 15        |
| 1.6      | Research Methodology .....                            | 16        |
| 1.6.1    | Literature Review .....                               | 17        |
| 1.6.2    | Design and Implementation .....                       | 17        |
| 1.6.3    | Evaluation .....                                      | 19        |
| 1.7      | Thesis Outline .....                                  | 19        |
|          | Bibliography .....                                    | 21        |
| <b>2</b> | <b>Contributions .....</b>                            | <b>27</b> |
| 2.1      | Publications .....                                    | 27        |
| 2.2      | Contributions .....                                   | 29        |
| <b>3</b> | <b>Preliminaries .....</b>                            | <b>33</b> |
| 3.1      | General Data Protection Regulation .....              | 33        |
| 3.2      | Artificial Intelligence and its Paradigms .....       | 36        |

|                                 |                                                                                                     |           |
|---------------------------------|-----------------------------------------------------------------------------------------------------|-----------|
| 3.3                             | Semantic Web Technologies .....                                                                     | 37        |
| 3.3.1                           | Ontology and Knowledge Graphs .....                                                                 | 38        |
| 3.3.2                           | Resource Description Framework .....                                                                | 42        |
| 3.3.3                           | Resource Description Framework Schema .....                                                         | 42        |
| 3.3.4                           | Web Ontology Language .....                                                                         | 43        |
| 3.3.5                           | SPARQL Protocol and RDF Query Language .....                                                        | 43        |
| 3.4                             | Machine Learning .....                                                                              | 44        |
| 3.5                             | Graph Neural Networks .....                                                                         | 47        |
| 3.6                             | Bayesian Structure Learning .....                                                                   | 50        |
|                                 | Bibliography .....                                                                                  | 52        |
| <br><b>Part II Publications</b> |                                                                                                     |           |
