
Contents

1	Basics of Medical Exercise Therapy	1
1.1	Introduction to Evidence-Based Training Therapy	2
1.2	Anatomy of the Skeletal Muscle	4
1.2.1	Muscle and Fat Mass in Relation to Body Weight	4
1.2.2	Classification and Differences of Muscle Types	4
1.2.3	Detailed Anatomy of the Skeletal Muscle	5
1.3	Muscle Physiology	13
1.3.1	The Sensomotor System	13
1.3.2	Process of Muscle Contraction	18
1.3.3	Energy Supply Processes of Skeletal Muscles	21
1.3.4	Functioning of Muscle Spindles	22
1.3.5	Functioning of Golgi (Tendon) Organs	23
1.3.6	Functioning of Other Receptors of the Myofascial System	23
1.3.7	Definition, Signaling Pathways, and Functions of Myokines	24
1.4	Muscle Fiber Types	25
1.5	Forms of Muscle Work	26
1.6	Training-Related Biomechanics	27
1.6.1	Relevance of Torque in Strength Training	28
1.6.2	Calculation of the Required Force and the Resulting Pressure on Body Structures	28
1.6.3	Fixed and Loose Pulleys on the Cable Pull	30
1.6.4	Biomechanical Factors in Squats	30
1.6.5	Biomechanical Factors of the Intervertebral Discs	31
1.6.6	Avoidance of Locked Joint Positions Under High Weight Load	32
1.7	The Open and Closed System	33
1.7.1	The Open System	33
1.7.2	The Closed System	33
1.7.3	Comparison between the Open and Closed System	34
	References	34

2	Subareas of Medical Exercise Therapy	39
2.1	Strength Endurance.	40
2.1.1	Definition and Parameters of Endurance Strength Training	40
2.1.2	Research Findings on Endurance Strength Training.	41
2.2	Maximum Strength.	43
2.2.1	Definition and Parameters of Maximum Strength Training	43
2.2.2	Research Findings on Maximum Strength Training.	44
2.3	Power	44
2.3.1	Definition and Parameters of Power Training.	44
2.3.2	Research Findings on Power Training	45
2.4	Reactive Strength	46
2.4.1	Definition and Parameters of Reactive Strength.	46
2.4.2	Research Findings on Reactive Strength Training.	46
2.5	Endurance	47
2.5.1	Definition of Endurance Training	47
2.5.2	Stress Zones of Endurance Training	48
2.5.3	Methods of Endurance Training	49
2.5.4	Research Findings on Endurance Training	50
2.6	Proprioceptive Training.	50
2.6.1	Definition and Parameters of Proprioceptive Training.	50
2.6.2	Research Findings on Proprioceptive Training.	51
2.7	Training of Mobility	52
2.7.1	Causes of Restricted Joint Mobility	52
2.7.2	Mobility Enhancing Instruments of Medical Training Therapy.	53
	References.	54
3	Age-Dependent or Disease-Associated Changes in Organ Systems and the Effect of Medical Exercise Therapy	59
3.1	Cardiovascular System	61
3.1.1	Age-Dependent or Disease-Associated Changes in the Cardiovascular System	61
3.1.2	Effects of Medical Exercise Therapy on the Cardiovascular System	61
3.2	Blood and Immune System.	62
3.2.1	Age-Dependent or Disease-Associated Changes in the Blood and Immune System.	62
3.2.2	Effects of Medical Training Therapy on the Blood and Immune System	63
3.3	Lymphatic System.	63
3.3.1	Age-Related or Disease-Associated Changes in the Lymphatic System.	63

3.3.2	Effects of Medical Exercise Therapy on the Lymphatic System.	64
3.4	Respiratory System.	64
3.4.1	Age-Dependent or Disease-Associated Changes in the Respiratory System.	64
3.4.2	Effects of Medical Training Therapy on the Respiratory System.	65
3.5	Muscular System.	66
3.5.1	Age-Dependent or Disease-Associated Changes in the Muscular System.	66
3.5.2	Effects of Medical Training Therapy on the Muscular System.	67
3.6	Central and Peripheral Nervous System.	68
3.6.1	Age-Dependent or Disease-Associated Changes in the Central and Peripheral Nervous System.	68
3.6.2	Effects of Medical Training Therapy on the Central and Peripheral Nervous System.	68
3.7	Digestive System.	70
3.7.1	Age-Dependent or Disease-Associated Changes in the Digestive System.	70
3.7.2	Effects of Medical Exercise Therapy on the Digestive System.	71
3.8	Urinary System.	71
3.8.1	Age-Dependent or Disease-Associated Changes in the Urinary System.	71
3.8.2	Effects of Medical Exercise Therapy on the Urinary System.	72
3.9	Sexual System.	73
3.9.1	Age-Dependent or Disease-Associated Changes in the Reproductive System.	73
3.9.2	Effects of Medical Exercise Therapy on the Sexual System.	74
3.10	Skin System.	74
3.10.1	Age-Dependent or Disease-Associated Changes in the Skin System.	74
3.10.2	Effects of Medical Training Therapy on the Skin System.	75
3.11	Hormone System.	75
3.11.1	Age-Dependent or Disease-Associated Changes in the Hormone System.	75
3.11.2	Effects of Medical Training Therapy on the Hormonal System.	76
	References.	77
4	Process of Assessment.	87
4.1	Assessment of Strength Status.	88
4.1.1	Device-Based Determination of Strength.	88
4.1.2	The Epley Formula.	89

4.1.3	The Brzycki Formula	89
4.1.4	The Lander Formula	89
4.1.5	Lombardi Formula	89
4.1.6	Mayhew Formula	89
4.1.7	Wathen Formula	90
4.1.8	O'Connor Formula	90
4.1.9	The OMNIBUS Resistance Exercise Scale	90
4.1.10	The Perceived Velocity Scale	90
4.1.11	Calculation of Training Weight for Endurance Strength Training, Maximum Strength Training, Speed Strength Training, Reactive Strength Training.	91
4.2	Assessment of Endurance Status	91
4.2.1	Apparatus Determination of Endurance	92
4.2.2	Harvard Step Test	92
4.2.3	2 km Walk Test	93
4.2.4	Cooper Test	94
4.2.5	Conconi Test	94
4.2.6	Physical-Working-Capacity-Test	95
4.2.7	Borg Scales	97
4.2.8	Effort Scale-Sport	98
4.3	Assessment of Coordination Status	98
4.3.1	Instrumental Determination of Coordination	99
4.3.2	Non-Instrumental Assessment of Coordination	99
4.4	Assessment of Joint Mobility	99

5.2.6	Patellar Dislocation.	140
5.3	Area Lower Leg/Foot	143
5.3.1	Supination Trauma/Chronic Ankle Instability	143
5.3.2	Achillodynia/Achilles Tendon Tendinopathy	146
5.3.3	Flatfoot	148
5.4	Lumbar Spine Area.	150
5.4.1	Lumbar Radiculopathy/Lumbar Disc Herniation/Discectomy	150

5.4.2	Low back Pain.	154
5.4.3	Spondylolisthesis/Lumbar Spondylosis	157
5.4.4	Lumbar Instability.	160
5.4.5	Spinal Stenosis	167
5.5	Thoracic Spine Area	168
5.5.1	Ankylosing Spondylitis/Spondylitis Ankylosans	168
5.5.2	Adolescent Idiopathic Scoliosis	170
5.6	Cervical Spine Area	172
5.6.1	Cervical Radiculopathy/Cervical Disc Herniation	172
5.6.2	Neck Pain	175
5.6.3	Cervical Instability	178
5.7	Shoulder Girdle/Shoulder Joint Area	180
5.7.1	Glenohumeral Instability	180
5.7.2	Frozen Shoulder	182
5.7.3	Impingement Syndrome	186
5.7.4	Scapular Dyskinesis	190
5.8	Elbow Joint Area.	191
5.8.1	Lateral Epicondylopathy of the Humerus.	191
5.9	Wrist Area.	192
5.9.1	Carpal Tunnel Syndrome	192
