

Contents

1	Purpose and Objective of This Guide	7
1.1	Overview of the Requirements	7
1.2	Decision-Making Aid	7
1.3	Structure and Use of This Implementation Guide	7
1.4	Definition of Terms Depending on Branches of Industry and Context	8
2	Product Safety and Information	10
2.1	Principles of Risk Reduction/Minimisation	10
2.2	Information for Safety	10
2.2.1	Which Information is Relevant?	10
2.2.2	Irrelevant Information and Warning Pollution	11
2.2.3	Requirements for the Quality of Information	11
2.3	Types of Safety-Related Information	13
2.3.1	What EN IEC/IEEE 82079-1 Offers	13
2.3.2	No Contradictions	13
2.4	Risk Management	14
2.4.1	Obligations of the Manufacturer and the Significance of the Risk Assessment	14
2.4.2	Two Extreme Positions	15
2.4.3	The Importance of Risk Assessment for the Process	15
2.4.4	Documentation	16
2.5	Tasks and Opportunities for Technical Communicators	16
3	Legal Requirements for Safety-Related Information – Europe	18
3.1	Requirements under European Law	18
3.2	Product Safety Directive 2001/95/EC and Product Safety Regulation (EU) 2023/988	18
3.3	EU Legislation on CE Marking	19
3.3.1	EMC Directive 2014/30/EU	19
3.3.2	Low-Voltage Directive 2014/35/EU	20
3.3.3	Machinery Directive 2006/42/EC and Machinery Regulation (EU) 2023/1230	20
3.3.4	Regulation on Medical Devices (EU) 2017/745	23
3.3.5	Regulation on In Vitro Diagnostic Medical Devices (EU) 2017/746	24
3.3.6	Implementing Regulation (EU) 2021/2226 for Electronic Instructions	24
3.3.7	Pressure Equipment Directive 2014/68/EU	25
3.3.8	ATEX Directive 2014/34/EU	25
3.3.9	Toy Safety Directive 2009/48/EC	26
3.4	Germany	26
3.4.1	Product Safety Act and its Ordinances	26
3.4.2	Medical Products Act	28
3.4.3	Medical Devices EU Adaptation Act (MPEUAnpG)	28
3.4.4	Medical Devices Implementation Act (MPDG)	29
3.4.5	Requirements from Case Law	29
3.5	Austrian Product Safety Act and its Regulations	29
3.6	Swiss Federal Act on Product Safety	30

4	Legal Requirements for Safety-Related Information – Outside Europe	32
4.1	USA	32
4.1.1	Legal Basics	32
4.1.2	Practical Implementation	34
4.2	Brazil	36
4.3	Russia	37
4.4	People’s Republic of China	39
5	Legal Requirements for Safety-Related Information – Sector-Specific Examples	41
6	Requirements for Safety-Related Information in Relevant Standards	43
6.1	European and International Standards – EN, ISO, IEC	43
6.1.1	Cross-Sector Standards	43
6.1.2	Mechanical Engineering	49
6.1.3	Medical Devices	55
6.1.4	Household Appliances	58
6.2	US Standardisation – ANSI and Beyond	59
6.2.1	ANSI Z535.1 to 6	60
6.2.2	Comparison of EN IEC/IEEE 82079-1 and ANSI Z535.6	61
7	Recommendations for Implementation	67
7.1	Principles for Structuring and Presentation of Safety-Related Information in Information for Use	67
7.2	Safety Notes	71
7.2.1	Structure and Content of the “Safety” Chapter	71
7.2.2	Recommendations for Design of Safety Notes	73
7.3	Warning Messages in Context	76
7.3.1	Structure of Warning Messages	76
7.3.2	Location of Warning Messages	77
7.3.3	Recommendations for Design of Safety Notes	79
7.3.4	Additional Symbols and Pictograms (Warnings, Mandatory Actions, Prohibitions)	84
7.4	Recommendations for Wording in Safety Notes and Warning Messages	88
7.5	Warning Signs	91
7.5.1	The Importance of Warning Signs	91
7.5.2	Legal Basis	91
7.5.3	Structure and Design of Product Safety Labels – Overview	93
7.5.4	Normative Requirements for Warning Signs	97
7.5.5	Contents of Warning Signs	98
7.5.6	Design of Warning Signs	99
7.5.7	Warning Signs Without Text	102
7.5.8	ANSI or ISO?	105
7.5.9	Warning Signs Shown in the Instructions	105
7.5.10	Examples for Use of Warning Signs	107
7.5.11	Aspects of Placement on Different Types of Products	107
7.5.12	The Role of Technical Editing Departments in Designing Warning Signs	108

8	Glossary	110
9	Abbreviations and Bibliography	118
9.1	List of Abbreviations	118
9.2	List of Cited Laws, Directives, and Standards	119
9.2.1	Laws	119
9.2.2	EC Directives and Regulations	119
9.2.3	Standards	120
9.3	Literature	122
10	Authors	124
