Preface — V

About the editors — IX

List of authors — XI

Prashant Kumar and Chandrabhan Verma

1 Surface functionalization of nanomaterials: techniques, challenges, and opportunities — 1

Humira Assad, Imtiyaz Ahmad Lone, Suresh Kumar, Praveen Kumar Sharma, and Ashish Kumar

2 Surface functionalization of two-dimensional materials — 21

Hadiseh Masoumi, Azam Aslani, and Ahad Ghaemi

3 Challenges and opportunities of surface functionalization of two-dimensional materials — 37

Azam Aslani, Hadiseh Masoumi, and Ahad Ghaemi

4 Surface functionalization of metal oxides: challenges and opportunities — 51

Sanjeeb Sutradhar and Soumyakanta Prusty

5 Surface functionalization of metal oxides — 67

Omar Dagdag, Rajesh Haldhar, Abhinay Thakur, Walid Daoudi, Avni Berisha, Elyor Berdimurodov, and Hansang Kim

6 Surface functionalization of polymer-based nanomaterials — 87

Somaye Kolbadinejad and Ahad Ghaemi

7 Recent advancements and future direction in degradation of pollutants using surface-functionalized nanomaterials — 103

Madhulata Shukla

8 Surface-functionalized nanomaterials for adsorption and degradation of pollutants — 125

VIII — Contents

Fereshteh Pouresmaeil, Ahad Ghaemi, and Reza Norouzbeigi

9 Surface-functionalized nanomaterials for photocatalytic degradation of pollutants — 145

Farzad Moazami, Shanli Nezami, and Ahad Ghaemi

10 Surface-functionalized nanomaterials for the detection of toxic gases — 163

Fatemeh Bahmanzadegan and Ahad Ghaemi

11 Surface-functionalized nanomaterials for CO₂ capture and storage — 189

Mohammad Qasemnazhand and Ahad Ghaemi

12 Surface-functionalized nanomaterials for electrochemical sensing of pollutants — 213

Suresh Kumar, Ravinder Kumar, Humira Assad, and Jyoti Rani

13 Surface-functionalized nanomaterials for Li-, Na-, and K-ion batteries — 233

Muhammad Hamza Ashraf, Nazim Hussain, and Shahid Nawaz

14 Sustainable approaches for the surface functionalization of nanomaterials — 257

M. Hajizadeh, D. Aliyari, A. Dashan, and B. Ramezanzadeh

15 Surface-functionalized 2D nanomaterials for corrosion protection — 279

Zohreh Khoshraftar and Ahad Ghaemi

16 Surface-functionalized nanomaterials for wastewater treatment — 319

Index — 359
