

Contents

List of contributing authors — VII

Jean-Luc Dubois and Simon van der Heijden

1 Preface: the genesis of the MMAtwo project — 1

Simon van der Heijden, Jean-Luc Dubois, and Nikolaj Garnitsch

2 Vinyl polymer waste market: opportunities for PMMA chemical recycling — 7

Mariya Edeleva, Pablo Reyes, and Simon van der Heijden

3 Collection, sorting, and pretreatment — 19

Rudinei Fiorio, Mariya Edeleva, and Simon van der Heijden

4 Mechanical recycling principles and challenges — 31

Yoshi W. Marien

5 Kinetic concepts of PMMA thermochemical recycling — 43

Eli K. C. Moens and Yoshi W. Marien

6 Improving the sensitivity of lab-scale PMMA depolymerization experiments — 57

Jean-Luc Dubois

7 PMMA chemical recycling reactor technologies — 73

Freddy L. Figueira, Kevin M. Van Geem, Marek Blahušíak,
and Juraj Hrstka

8 Process design of chemical recycling — 99

Fady Boutros, Michiel Van Melkebeke, Clément Lemenu,
and Philippe De Groote

9 Purification of regenerated monomers — 115

Maria Savina Pianesi, Tommaso Compagnucci, Dagmar R. D'hooge,
and Mark Bierens

10 Challenges for industrial repolymerization — 131

VI — Contents

Mark Bierens, Jean-François Devaux, Clément Lemenu, Tommaso Compagnucci,
Juanjo Bermejo, Pascal Lakeman, Maria Savina Pianesi, and Philippe De Groot

11 Applications of regenerated MMA — 147

Jonathan Ouziel, Elnaz Zeinali, and Andrea Corona

12 Life cycle approaches as decision tools for technology development — 161

Jean-Luc Dubois and Jonathan Ouziel

13 MMAtwo's Footprinter — 179

Jacopo de Tommaso, Gregory S. Patience, and Jean-Luc Dubois

14 Recycling of artificial marble — 197

Bruno de Caumia, Benjamin Dubois, Gloire Justesse Adolphe Mbou,
David Laplante St-Martin, Gaétan Mercier, Hooshang Pakdel, and Christian Roy

15 Pyrovac's waste plastic pyrolysis process — 223

Ahmet Turhan Ural, Ezgi Güzel, and Yusuf Uludag

16 A novel method for PMMA recycling: mixed induction reactor — 241

Sara Babo, Anna Micheluz, Eva Mariasole Angelin, Susanne Brunner,
Joana Lia Ferreira, and Marisa Pamplona

17 Identification of additives in historical PMMA: contributions from heritage science — 251

Simon van der Heijden and Jean-Luc Dubois

18 Conclusions and future outlook — 271

Index — 279
