Part 1 Session Summaries

I: Upper Tropospheric/Lower Stratospheric Ozone Climatology	3
V. A. Mohnen (Chairperson), M. Rummukainen (Rapporteur), R. D. Bojkov, D. De Muer, J. P. F. Fortuin, S. O. Haugland, C. M. Liu, A. Marengo, G. Mégie, R. Stolarski, P. Taalas, X. Yin, C. Zerefos, X. Zhou	
II: Chemical Modeling	19
Ø. Hov (Chairperson), J. Lelieveld (Rapporteur), G. Brasseur, J. Fuglestad, D. Hauglustaine, J. E. Jonson, I. Karol, A. Ravishankara, F. Stordal	
III: Climate Modeling	39
H.-F. Graf (Chairperson), S. Cox (Rapporteur), X.-Z. Liang, H. Mao, G. Myhre, P. Rasch, L. P. Riishøjgaard, K. Shine, I. Thorstensen, G.-X. Wu, I. Yagai, L. Zetterberg	
IV: Issues Relevant to the Development of Coupled Chemistry/Climate Models	47
J. Penner (Chairperson), M. J. Prather (Rapporteur), J. Austin, D. Cariolle, H. Kelder, A. Kylling, B. Steil, J. K. Sundet	

Part 2 Research Studies

Climate Change and Its Effect on Tropospheric Ozone	65
C. S. Atherton, J. E. Penner, C. Price, J. J. Walton	
Simulations of Stratospheric Ozone in a Climate Model	87
J. Austin, N. Butchart	
GCM Modelling of the Stratospheric Dynamics and Its Coupling with Chemistry	101
D. Cariolle, M. Déqué, F. Lefèvre, A. De Rudder	
Analysis of 25 Years of Regular Ozone Soundings at Uccle (Belgium)	113
D. De Muer, H. De Backer, Ph. Van Haver	
Concurrent Ozone and Temperature Trends Derived from Ozonesonde Stations	131
J. P. F. Fortuin, R. Van Dorland, H. Kelder	
Responses in Tropospheric Chemistry to Changes in UV Fluxes, Temperatures and Water Vapour Densities	145
J. S. Fuglestad, J. E. Jonson, W.-C. Wang, I. S. A. Isaksen	
On the Interrelationship Between Recent Climate Trends, Ozone Changes and Increased Greenhouse Gas Forcing	163
H.-F. Graf, J. Perlwitz, I. Kirchner, I. Schult	
Mid-Latitude Stratospheric-Tropospheric Ozone Exchange - A Trend Study	181
S. O. Haugland	

Radiative Forcing by Tropospheric Ozone Changes Due to Increased Emissions of CH₄, CO and NO_x D. A. Hauglustaine, C. Granier	189
The Role of Convection in the Vertical Distribution of Ozone and Precursors in the Troposphere Ø. Hov, F. Flatøy, A. Strand	205
Effects of Aqueous-Phase Chemistry on Tropospheric O₃ and Odd Hydrogen J. E. Jonson, I. S. A. Isaksen	215
Ozone Chemistry Changes in the Troposphere and Consequent Radiative Forcing of Climate J. Lelieveld, R. Van Dorland	227
A GCM Study of the Climatic Effect of 1979-1992 Ozone Trend X.-Z. Liang, W.-C. Wang	259
Ozone Monitoring in Taiwan C.-M. Liu, C.-J. Lin, H.-W. Chang, S.-M. Chou	289
Experimental Determinations of Meridional Distribution and Long Term Evolution of Tropospheric Ozone - Consequences on Radiative Forcing A. Marengo, I. Jonquière, H. Gouget, P. Nédélec	305
Challenges in Tropospheric Ozone and Predicting Its Future Trend V. A. Mohnen	321
Chemistry of Ozone in the Upper Troposphere and Lower Stratosphere: Perspectives from Laboratory Studies A. R. Ravishankara	343
Stratospheric Ozone Research in Finland, Focusing on Atmospheric Modelling M. Rummukainen, E. Kyrö, I. S. A. Isaksen, F. Stordal, B. Rognerud	363
Radiative Forcing Due to Changes in Ozone: A Comparison of Different Codes K. P. Shine, B. P. Briegleb, A. S. Grossman, D. Hauglustaine, H. Mao, V. Ramaswamy, M. D. Schwarzkopf, R. Van Dorland, W.-C. Wang	373
Ozone Trends from Satellite Data R. S. Stolarski, R. D. McPeters, J. F. Gleason	397
Connections Between Atmospheric Ozone, the Climate System and UV-B Radiation in the Arctic P. Taalas, J. Damski, A. Korpela, T. Koskela, E. Kyrö, G. Braathen	411
Tropopause Fold Formation in an Explosive Cyclogenesis I. K. Thorstensen	427

Development of Coupled Models at LASG G. Wu, X. Zhang	435
The Recent Variability of Atmospheric Ozone in the Middle Latitudes of the Northern Hemisphere and Solar Ultraviolet Radiation C S. Zerefos	447
Studies on Atmospheric Ozone over China X. Zhou	453
Authors and Participants	457
Author Index	461
