Energy and Mineral Potential of the Central American-Caribbean Region

**Circum-Pacific Council
for Energy and Mineral Resources
Earth Science Series, Volume 16**

With 181 Figures and 76 Tables

Springer

TABLE OF CONTENTS

Overview

The role of national institutions and international cooperation in the development of the geological sciences in the Central American-Caribbean region	3
<i>Gabriel Dengo</i>	
The known and potential resource base for economic development in the Central American-Caribbean region	7
<i>Gregorio Escalante</i>	
Geodynamic map of Costa Rica	11
<i>Walter Montero P., Sergio Paniagua P., Siegfried Kussmaul, Francois Rivier</i>	
Central America and the north Caribbean: Resource implications inferred from paleomagnetic data and plate tectonic history	19
<i>William D. MacDonald</i>	
The status of mineral production in the Caribbean Basin countries	31
<i>Orlando Martino</i>	
Circum-Caribbean sedimentary basin development and timing of hydrocarbon maturation as a function of Caribbean Plate tectonic evolution	47
<i>James L. Pindell</i>	
The human and economic losses of selected natural disasters in Latin America, 1970-1987	57
<i>Daniel B. Krinsley</i>	
Central American resource studies	63
<i>Ed Van Eeckhout, Bill Laughlin</i>	

Petroleum Resources

Caribbean region: Perspectives on petroleum	71
<i>Arthur A. Meyerhoff, Anthony E. L. Morris, Irfan Taner</i>	
Sedimentary basins of Costa Rica: Late Mesozoic-Cenozoic evolution and hydrocarbon potential	85
<i>Allan Astorga, Jose A. Fernandez, Guillermo Barboza, Lolita Campos, Jorge Obando, Alvaro Aguilar, Luis Obando</i>	
An integrated geological and geophysical interpretation of the San Carlos basin, Costa Rica	95
<i>Lesmes E. Ballester C., Mihaela M. Dobrinescu, Ian R. Mayers, Gerardo Jager C.</i>	
Preliminary tectonic outline of northern Guatemala	105
<i>Julio C. Franco A., Luis F. López, Miguel A. Carballo H.</i>	
The Cobán Formation in the Petén basin, Guatemala	115
<i>L. A. Wug, R. M. Matias, C. A. De Leon, J. S. De la Cruz</i>	
The petroleum potential of the Netherlands Antilles	123
<i>Thomas E. Daly</i>	
Sedimentary basins and petroleum potential of Puerto Rico	131
<i>D. K. Larue, R. Torrini, Jr.</i>	

An oil and gas assessment of the U.S. continental slope in the Gulf of Mexico	137
<i>George Carpenter, Pulak Ray</i>	
The perpetual mystery of petroleum migration	143
<i>William H. Roberts, III</i>	
Summary of working group session on petroleum resources	149
<i>Gerardo Jager</i>	

Coal and Peat Resources

Coal in the Central American-Caribbean region	153
<i>E. R. Landis, J. N. Weaver, M. D. Carter, G. H. Wood, Jr.</i>	
Exploration, development, and utilization of coal in Costa Rica	159
<i>Oldemar Ramirez, Kenneth Bolaños, Luis Malavassi</i>	
Coal resources of the Baja Talamanca area of Costa Rica	163
<i>Kenneth Bolaños I., Manuel Salas P.</i>	
A mining design project for the Zent coal, Limon, Costa Rica	169
<i>Rogelio Samuels, Gladys Cubilla</i>	
Utilizing coal in the cement industry in Costa Rica	175
<i>Fernando Alvarado and Rafael Yglesias</i>	
Coal districts of Venezuela	179
<i>Simon E. Rodriguez M.</i>	
Status of coal exploration in the Atlantic coast of Colombia	183
<i>Hernán Gómez-Mejía</i>	
Opportunities for collaborating in utilization of clean coal technologies	191
<i>Denise F. Swink</i>	
Peat deposits of Central America and the Caribbean region	193
<i>Arthur D. Cohen, Oldemar Ramirez, Luis Obando, Luis Malavassi, Arturo Ramirez</i>	
Deposits of peat in Costa Rica	199
<i>Luis Gmo. Obando, Luis R. Malavassi, Rodrigo Estrada</i>	
Economics of selected energy applications of peat in Panama and Costa Rica	209
<i>Gary Thayer, Oldemar Ramirez E., Arturo Ramirez</i>	
Recommendations of the working group on coal and peat	213
<i>Jean Weaver</i>	

Geothermal Resources

Status and geologic setting of geothermal fields in Central America, Mexico, and the Caribbean	217
<i>David Sussman</i>	
Seismological studies at the Miravalles geothermal project	225
<i>Rafael Barquero</i>	

Geophysical exploration of Las Pailas geothermal field, Rincón de la Vieja, Guanacaste Province, Costa Rica	231
<i>Arturo Quesada Muñoz, Germán Leandro, Luis Diego Morales</i>	
Momotombo geothermal field	239
<i>Ernesto Martinez Tiffer, Roger Arcia Lacayo</i>	
Current status of geothermal activities in Guatemala	247
<i>A. A. Caicedo</i>	
Geothermal prefeasibility studies in Honduras	257
<i>Wilmer Flores</i>	
Prefeasibility geothermal assessment of Platanares, Department of Copán, Honduras	263
<i>Sue Goff, Fraser Goff, Grant Heiken, Wendell A. Duffield, Alfred H. Truesdell, A. W. Laughlin, Wilmer Flores</i>	
An economic prefeasibility study of geothermal energy development at Platanares, Honduras	269
<i>Linda K. Trocki</i>	
Application of geothermal energy to mineral processing: Cyanide heap-leaching of low-grade gold ore	277
<i>Thomas Flynn, Dennis Trexler, James L. Hendrix</i>	
Environmental impacts associated with geothermal exploration, development, and power generation	283
<i>Agustin L. Viesca</i>	
Summary and recommendations of the working group on geothermal resources	287
<i>David Sussman</i>	

Industrial Minerals and Metallic Mineral Resources

The outlook for volcanic-hosted gold deposits in the Republic of Costa Rica	291
<i>Steve Ludington, William C. Bagby</i>	
Origin of gold from the Golfo Dulce placer province, southern Costa Rica	299
<i>Jevan P. Berrangé</i>	
Nickel potential of the Caribbean Plate and adjacent regions	305
<i>Fred Barnard, Faustino Prado</i>	
The Jamaican bauxite industry: Glimpses into its past, present, and future	315
<i>Carlton E. Davis</i>	
Mineral-energy resources in the Dominican Republic	319
<i>Francisco J. Amézquita</i>	
Selected precious-metal occurrences in the Lesser Antilles	323
<i>Gregory E. McKelvey</i>	
Biogeochemistry for future mineral resource exploration programs in the Central American-Caribbean region	329
<i>Frederick R. Siegel, Alfonso Segura Paguaga</i>	
Industrial minerals—Key to economic development	335
<i>Haydn H. Murray</i>	

The occurrence, production, and trade of non-metallic industrial minerals in Costa Rica	339
<i>S. J. Mathers, N. Morales</i>	
A provisional study of Costa Rican diatomites as raw materials for filter-aids	345
<i>S. J. Mathers, S. D. J. Inglethorpe, A. J. Bloodworth</i>	
Summary and recommendations of the minerals working group	353
<i>Orlando Martino, Stephen Ludington</i>	

Water Resources

* The distinctive hydrology of tropical islands	357
<i>Allen L. Zack</i>	
A Quaternary volcanic aquifer system in Central America: Key factors in groundwater potential and protection	363
<i>S. S. D. Foster, J. M. Parker, A. Gomez Cruz</i>	
Structure and depositional patterns and their influence on the hydraulic conductivity of fan-deltas in southern Puerto Rico	369
<i>Robert A. Renken, Fernando Gómez-Gómez, Vicente Quiñones-Aponte, Rafael Dacosta</i>	
Karst localities in Costa Rica and their geologic background	379
<i>Sergio Mora C.</i>	
✓ Summary statement for hydrology session working group	387
<i>Allen L. Zack</i>	

Geologic Hazards

Landslides on the Panama Canal	391
<i>George Berman</i>	
Geologic hazards in Honduras	397
<i>Michael J. Kozuch</i>	
Extent and social-economic significance of slope instability in the island of Hispaniola	403
<i>Sergio Mora C.</i>	
Use of seismic refraction techniques for investigating recent landslides in a tropical rain forest in Puerto Rico	411
<i>Matthew C. Larsen</i>	
➤ Report of the working group on natural hazards	415
<i>Mary Ellen Williams</i>	
INDEX	417
