Summary outline of the complete BC2 classification	vi
Second outline of the complete BC2 classification	vii
Volumes in the series	viii
The Bliss Classification Association	ix
Introduction to Class C: Chemistry	xi
1 Introduction	xi
2 Scope of Class C and its place in BC2	xii
3 Structure of classes in BC2	xiii
4 Facet structure of Class C Chemistry	xiii
5 Arrays within the facets	xiv
6 Citation order (combination order)	xiv
7 Filing order	xvi
8 Alternative locations and treatments	xvii
9 Notation	xviii
10 Alphabetical subject index	xxi
11 Special problems of classification in Class C	xxii
12 Practical classification in Class C	xxvi
13 Applications of Class C	xxviii
14 Class C in BC2 compared with Class C in BC1	xxx
15 Acknowledgements	xxxii
16 References	xxxii
Summary outline of Class C: Chemistry	xxxiv
Detailed outline of Class C: Chemistry	1
Schedule of Class C: Chemistry	21
Appendix 1: How to subdivide an element, compound or class of compounds	121
Appendix 2: Radicals and functional groups	126
Using the index	130
Alphabetical index	133
