VII Preface

Hammes, H.-P. (Mannheim); Porta, M. (Turin)

1 Clinical Presentations and Pathological Correlates of Retinopathy

Bek, T. (Århus)

20 Retinal Vascular Permeability in Health and Disease

Poulaki, V. (Boston, Mass.)

42 In vivo Models of Diabetic Retinopathy

Zheng, L. (Wuhan); Kern, T.S. (Cleveland, Ohio)

61 Pericyte Loss in the Diabetic Retina

Pfister, F.; Lin, J.; Hammes, H.-P. (Mannheim)

79 Neuroglia in the Diabetic Retina

Bringmann, A.; Reichenbach, A. (Leipzig)

98 Regulatory and Pathogenic Roles of Müller Glial Cells in Retinal Neovascular Processes and Their Potential for Retinal Regeneration

Limb, G.A.; Jayaram, H. (London)

109 Growth Factors in the Diabetic Eye

Simó, R.; Hernández, C. (Barcelona)

124 Balance between Pigment Epithelium-Derived Factor and Vascular Endothelial Growth Factor in Diabetic Retinopathy

Ogata, N. (Osaka); Tombran-Tink, J. (Hershey, Pa.)

142 The Renin-Angiotensin System in the Eye

Ströder, K.; Unger, T.; Steckelings, U.M. (Berlin)

158 Interactions of Leukocytes with the Endothelium

Chavakis, T. (Bethesda, Md.)

174 Stem and Progenitor Cells in the Retina

Sengupta, N.; Caballero, S. (Gainesville, Fla.); Moldovan, N. (Columbus, Ohio);
Grant, M.B. (Gainesville, Fla.)

194 Role of Pericytes in Vascular Biology

Armulik, A.; Betsholtz, C. (Stockholm)

203 Current Approaches to Retinopathy as a Predictor of Cardiovascular Risk

Cheung, N. (Melbourne, Vic.); Liew, G. (Sydney, N.S.W.); Wong, T.Y. (Melbourne, Vic./Singapore)

220 From Bedside to Bench and Back: Open Problems in Clinical and Basic Research

Porta, M. (Turin); Hammes, H.-P. (Mannheim)

228 Author Index

229 Subject Index
