|----------------------------------------------------------------------------------------|------------|
| <b>Author's Preface</b>                                                                | <b>9</b>   |
| <b>Prologue</b>                                                                        | <b>15</b>  |
| <b>The Hinge: The VLT</b>                                                              | <b>15</b>  |
| <b>Part I: Catching Up</b>                                                             | <b>19</b>  |
| Chapter I-1 · The Oldest Science                                                       | 21         |
| Chapter I-2 · Returning from the Abyss                                                 | 25         |
| Chapter I-3 · A Dramatic Twist                                                         | 35         |
| Chapter I-4 · In the Most Remote Place God Could Find                                  | 43         |
| Chapter I-5 · ESO — <i>Quo Vadis?</i>                                                  | 53         |
| Chapter I-6 · Towards the 3.6-metre Telescope                                          | 59         |
| Chapter I-7 · Sky Mapper                                                               | 75         |
| Chapter I-8 · Of Heaven and Hell, the Vatican and the Mission                          | 85         |
| Chapter I-9 · The Changing of the Guard                                                | 93         |
| Chapter I-10 · Garching United                                                         | 99         |
| <b>Part II: Years of Experimentation</b>                                               | <b>107</b> |
| Chapter II-1 · Upping the Ante                                                         | 109        |
| Chapter II-2 · Inventing a Game Changer                                                | 119        |
| Chapter II-3 · EMMI, SUSI, SOFI and the other Darlings                                 | 125        |
| Chapter II-4 · Hubble at ESO                                                           | 137        |
| Chapter II-5 · History in Passing                                                      | 147        |
| Chapter II-6 · An <i>Annus Mirabilis</i>                                               | 155        |
| Chapter II-7 · Decision Day                                                            | 171        |
| Chapter II-8 · A Mountain in the Middle of Nowhere                                     | 177        |
| Chapter II-9 · NTT First Light                                                         | 187        |
| <b>Part III: The Breakthrough</b>                                                      | <b>199</b> |
| Chapter III-1 · Back to the Drawing Board                                              | 201        |
| Chapter III-2 · <i>Aux Instruments, Chercheurs!</i>                                    | 215        |
| Chapter III-3 · Breaking the Seeing Barrier                                            | 231        |
| Chapter III-4 · From double-sight to supersight: Interferometry                        | 243        |
| Chapter III-5 · The Return of the Dalton Brothers                                      | 251        |
| Chapter III-6 · Bang for the Buck                                                      | 265        |
| Chapter III-7 · Paradigm Revisited                                                     | 271        |
| Chapter III-8 · Upgrading, De-scoping                                                  | 279        |
| Chapter III-9 · Clouds on the Horizon                                                  | 289        |
| Chapter III-10 · At the Brink                                                          | 295        |
| Chapter III-11 · Tranquillity in Chile, Icy Winds in Europe                            | 305        |
| Chapter III-12 · Tuning a Formidable Science Machine                                   | 317        |
| Chapter III-13 · The Countdown                                                         | 327        |
| Chapter III-14 · Clear Skies, at Last                                                  | 337        |
| Chapter III-15 · First Fringes of the Phoenix                                          | 351        |
| Chapter III-16 · Not just a Telescope, an Observatory; Not just an Observatory, a Home | 361        |
| <b>Part IV: Towards New Horizons</b>                                                   | <b>367</b> |
| Chapter IV-1 · ALMA                                                                    | 369        |
| Chapter IV-2 · Into New Territory                                                      | 393        |
| Chapter IV-3 · Buds at Paranal                                                         | 401        |

|                                                                   |            |
|-------------------------------------------------------------------|------------|
| Chapter IV-4 · Of Eponymous Birds and Euros                       | 411        |
| Chapter IV-5 · The VLT in Retrospect                              | 427        |
| Chapter IV-6 · A Love Affair                                      | 445        |
