

Contents

1	Introduction	1
1.1	The Connotation of Uncertainty.....	1
1.2	The Research Scope of Uncertain Judgment Knowledge	2
1.3	A Historical Evolution of Uncertainty Fuzzy Sets Theory.....	2
1.4	Research Contents of Uncertain Preference Relations	3
2	Relevant Theories of Reciprocal Preference and Fuzzy Preference Relations	5
2.1	Preference Relations and Their Scales	5
2.2	Properties of Preference Relations	8
2.2.1	Properties of MPRs.....	8
2.2.2	Properties of Fuzzy Preference Relations (FPRs).....	9
2.3	Priority Method of Fuzzy Preference Relations with Incomplete Information	11
2.3.1	A Least Square Model for Collective Preference Relations with Incomplete Information	12
2.3.2	Numerical Example	17
2.4	Conclusions	18
3	Complementary Preference Relations of Interval Fuzzy Numbers.....	19
3.1	Basic Concepts	19
3.2	Properties and Priorities of IFNCPRs with Additive Consistency	21
3.2.1	Properties of IFNCPRs with Additive Consistency	21
3.2.2	A Numerical Example.....	25
3.3	Properties and Priorities of IFNCPRs with Multiplicative Consistency	27
3.3.1	Properties of IFNCPRs with Multiplicative Consistency	27
3.3.2	Priorities of IFNCPRs with Multiplicative Consistency	32
3.3.3	A Numerical Example.....	33
3.4	Group Decision Making Based on Complementary Judgment Matrices of Incomplete Interval Fuzzy Numbers.....	34
3.4.1	Least Squares Priority Model of Complementary Preference Relations of Incomplete Interval Fuzzy Numbers.....	34
3.4.2	A Numerical Example.....	38

3.5	Logarithmic Least Squares Priority Model of Collective IFNCPRs	39
3.5.1	Logarithmic Least Squares Priority Model of Collective IFNCPRs	39
3.5.2	A Numerical Example.....	42
3.6	Conclusions	44
4	Complementary Preference Relations of Triangular Fuzzy Numbers.....	45
4.1	Basic Concepts	46
4.2	Properties and Priority of Additively Consistent Complementary Preference Relations of Triangular Fuzzy Numbers	47
4.2.1	A Comparative Method of Two Triangular Fuzzy Numbers	47
4.2.2	Additively Consistent Complementary Preference Relations of Triangular Fuzzy Numbers	48
4.2.3	Aggregations of Complementary Preference Relations of Triangular Fuzzy Numbers	54
4.2.4	A Numerical Example.....	56
4.3	Properties and Priority of Multiplicatively Consistent Complementary Preference Relations of Triangular Fuzzy Numbers	57
4.3.1	Properties of Multiplicatively Consistent Complementary Preference Relations of Triangular Fuzzy Numbers	57
4.3.2	Priorities of TFNCPRs with Multiplicative Consistency	64
4.3.3	A Numerical Example.....	65
4.4	Group Decision Making Based on TFNCPRs	66
4.4.1	Least Squares Priority Model of Incomplete TFNCPRs	66
4.4.2	A Numerical Example.....	72
4.5	Conclusions	74
5	Two-Tuple Linguistic Preference Relations	75
5.1	The Basic Concept of 2-Tuple Linguistic Term Set	76
5.2	Two-Tuple Linguistic Preference Relations.....	79
5.3	Relationship between FPRs and 2-Tuple LPRs.....	85
5.4	A Numerical Example	88
5.5	Conclusions	90
6	Preference Relations of Trapezoidal Fuzzy Numbers	93
6.1	Relationship between Preference Relations of Trapezoidal Fuzzy Numbers and 2-Tuple LPRs.....	93
6.2	Aggregation of Preference Relations of Trapezoidal Fuzzy Numbers.....	98
6.3	A Numerical Example	100
6.4	Conclusions	102

7	Group Decision Making for Different Fuzzy Preference Relations.....	103
7.1	Group Decision Making Based on 2-Tuple Linguistic LPRs with Different Fuzzy Preferences	103
7.1.1	Definitions	103
7.1.2	Relationship between Uncertainty Preference Relations and 2-Tuple LPRs	105
7.1.3	Aggregation of Different Preference Relations.....	112
7.1.4	A Numerical Example.....	113
7.2	Group Decision Making for Different Preference Relations.....	115
7.2.1	Steps for Aggregating Different Fuzzy Preference Relations	115
7.2.2	A Numerical Example.....	117
7.3	Conclusions	120
8	Intuitionistic Fuzzy Preference Relations.....	121
8.1	Basic Concepts	122
8.1.1	Intuitionistic Fuzzy Sets.....	122
8.1.2	Comparison of Intuitionistic Fuzzy Values.....	123
8.2	Intuitionistic Fuzzy Preference Relations.....	124
8.2.1	Intuitionistic Fuzzy Preference Relations	124
8.2.2	Relationship between IFPRs and the IFNCPRs	125
8.3	Additive Consistency of IFPRs	127
8.3.1	Additive Consistency of IFPRs.....	127
8.3.2	Numerical Examples	134
8.4	Multiplicatively Consistent IFPRs	138
8.5	Least Squared Priority Models of IFPRs.....	144
8.5.1	Priority Model of Consistent IFPRs.....	144
8.5.2	Priority Model of Multiplicatively Consistent IFPRs	147
8.5.3	Priority Model of Inconsistent IFPRs	147
8.5.4	Priority Algorithm of IFPRs	149
8.5.5	Numerical Examples	149
8.6	Goal Programming Priority Model of IFPRs	151
8.6.1	Normalization of Intervals	151
8.6.2	Goal Programming Priority Model of Inconsistent IFPRs	152
8.6.3	Goal Programming Priority of Collectively Inconsistent IFPRs	153
8.6.4	Numerical Examples	156
8.7	Optimal Priority Models of Additively Consistent IFPRs.....	159
8.7.1	Additively Consistent IFPRs.....	160
8.7.2	Priority of Collective Additively Consistent IFPRs	162
8.7.3	The Priority of an Individual Inconsistent IFPR	164
8.7.4	Priority of Collective Inconsistent IFPRs	166
8.7.5	Numerical Examples	167
8.7.6	IFPR Models Applied to Select Meteorologically-Sensitive Industries.....	173

- 8.8 Optimization Models of Incomplete IFPRs.....175
 - 8.8.1 Optimization Models of Incomplete IFPRs175
 - 8.8.2 A Numerical Example.....177
- 8.9 Group Decision Making Model Based on IFPRs179
 - 8.9.1 Operation Laws of Intuitionistic Fuzzy Values179
 - 8.9.2 Group Decision Making Model of IFPRs180
 - 8.9.3 A Numerical Example.....185
- 8.10 Consensus Measures of Group IFPRs187
 - 8.10.1 Consensus Measure of IFPRs187
 - 8.10.2 A Numerical Example.....190
- 8.11 Conclusion191
