Foreword	xi
Preface.....	xiii
Contributors	xv

I Principles of Spinal Cord Injury Clinical Practice

1	Anatomy and Physiology of the Spinal Cord.....	3
	<i>Serge Rossignol</i>	
2	Evaluation of the Patient with Spinal Cord Injury	18
	<i>Mahmoud Benour, Aleksa Cenic, R. John Hurlbert, and Charles H. Tator</i>	
3	Imaging of Acute Spinal Cord Trauma and Spinal Cord Injury.....	27
	<i>David W. Cadotte, David J. Mikulis, Patrick Stroman, and Michael G. Fehlings</i>	
4	Pathophysiology of Spinal Cord Injury.....	38
	<i>James W. Austin, James W. Rowland, and Michael G. Fehlings</i>	
5	Epidemiology of Traumatic Spinal Cord Injury.....	56
	<i>Yuying Chen</i>	
6	Spinal Cord Injury Classification	65
	<i>Sonia Teufack, James S. Harrop, and Ashwini D. Sharan</i>	
7	Spontaneous Recovery Patterns and Prognoses after Spinal Cord Injury	75
	<i>Doniel Drazin and Maxwell Boakye</i>	
8	Management of Spinal Cord Injury in the Intensive Care Unit.....	84
	<i>Nicolas Phan</i>	
9	Concomitant Traumatic Brain Injury and Spinal Cord Injury.....	98
	<i>Daniel C. Lu, Nicolas Phan, Michael S. Beattie, and Geoffrey T. Manley</i>	
10	Pharmacotherapy in Acute Spinal Cord Injury: Focus on Steroids.....	108
	<i>Edward M. Marchan, George Ghobrial, Benjamin M. Zussman, James S. Harrop, and Alpesh A. Patel</i>	
11	Halo Application and Closed Skeletal Reduction of Cervical Dislocations.....	117
	<i>Scott D. Daffner</i>	
12	Principles of Surgical Management of Spinal Trauma Associated with Spinal Cord Injury	124
	<i>Toba N. Niazi, Michael Daubs, and Andrew T. Dailey</i>	

13	Venous Thromboembolism Prophylaxis.....	135
	<i>Avraam Ploumis</i>	
14	Sexuality and Fertility after Spinal Cord Injury.....	143
	<i>Stacy L. Elliott</i>	
15	Interdisciplinary Essentials in Pressure Ulcer Management.....	158
	<i>Kath Bogie, Chester Ho, Monique Washington, Sharon Foster-Geeter, J. C. Seton, Steven J. Mitchell, Martin J. Kilbane, Gina L. D. Kubec, Kimberly Sexton, Thomas M. Dixon, Christine C. Frick, and Joshua L. White</i>	
16	Autonomic Dysreflexia and Cardiovascular Complications of Spinal Cord Injury.....	181
	<i>Andrei Krassioukov</i>	
17	Pain after Spinal Cord Injury	195
	<i>Angela Mailis and Luis Enrique Chaparro</i>	
18	Essentials of Spinal Cord Injury: Psychosocial Aspects of Spinal Cord Injury.....	205
	<i>Paul Kennedy and Emilie F. Smithson</i>	
19	Posttraumatic Kyphotic Deformity of the Cervical Spine	213
	<i>Kris E. Radcliff, David Gendelberg, Gurusukhman D. S. Sidhu, and Alexander R. Vaccaro</i>	
20	Posttraumatic Syringomyelia: Pathophysiology and Management	224
	<i>Mohammed Farid Shamji, Sung-Joo Yuh, and Eve C. Tsai</i>	
21	Rehabilitation of the Individual with Spinal Cord Injury	235
	<i>Aria Fallah, Derry Dance, and Anthony S. Burns</i>	
22	The Management of Secondary Complications Following Spinal Cord Injury.....	244
	<i>Anthony S. Burns, Jefferson R. Wilson, and B. Catharine Craven</i>	

II Controversies in Management

23	Timing of Surgery for Acute Spinal Cord Injury: From Basic Science to Clinical Application.....	265
	<i>David W. Cadotte and Michael G. Fehlings</i>	
24	Hypothermia: Evidence-Based Review	291
	<i>David M. Benglis Jr., Allan D. Levi, and Michael Y. Wang</i>	
25	Management of Cervical Facet Dislocation.....	308
	<i>Ishaq Y. Syed and Joon Y. Lee</i>	
26	Management of Acute Spinal Cord Injury in Thoracolumbar Burst Fractures Including Cauda Equina Syndrome	320
	<i>Marcel F. Dvorak and Brian Lenehan</i>	
27	Management of Central Cord Syndrome.....	329
	<i>Harvey E. Smith and Todd J. Albert</i>	

III Neuroprotective and Neuroregenerative Approaches

28	Research in Spinal Cord Injury: Building an Effective Translational Research Program	339
	<i>W. Dalton Dietrich</i>	

29	North American Clinical Trials Network: Building a Clinical Trials Network for Spinal Cord Injury	348
	<i>Robert G. Grossman, Elizabeth G. Toups, Ralph F. Frankowski, Keith D. Burau, and Susan P. Howley for the NACTN Investigators</i>	
30	Considerations for the Initiation and Conduct of Spinal Cord Injury Clinical Trials.....	356
	<i>John D. Steeves</i>	
31	Animal Models of Spinal Cord Injury	366
	<i>Aileen J. Anderson, Sheri L. Peterson, and Christopher J. Sontag</i>	
32	Glial Scar and Monocyte-Derived Macrophages Are Needed for Spinal Cord Repair: Timing, Location, and Level as Critical Factors	378
	<i>Michal Schwartz and Ravid Shechter</i>	
33	Promising Preclinical Pharmacological Approaches to Spinal Cord Injury.....	391
	<i>Michael S. Beattie and Jacqueline C. Bresnahan</i>	
34	Cellular Transplantation in Spinal Cord Injury.....	399
	<i>Wolfram Tetzlaff</i>	
35	Neuroregeneration Approaches.....	411
	<i>Lisa McKerracher, Michael G. Fehlings, Alyson Fournier, and Stephan Ong Tone</i>	
36	Neuroprotective Trials in Spinal Cord Injury	421
	<i>Shelly Wang, Gregory W. J. Hawryluk, and Michael G. Fehlings</i>	
37	Approaches Using Biomaterials for Tissue Engineering.....	431
	<i>Catherine E. Kang, Howard Kim, Violeta Talpag, and Molly Sandra Shoichet</i>	

IV Neurophysiology and Imaging

38	Electrophysiological Measures after Spinal Cord Injury.....	443
	<i>James Xie and Maxwell Boakye</i>	
39	Quantitative Tests of Sensory, Motor, and Autonomic Function	453
	<i>Peter H. Ellaway</i>	
40	Basic Neurophysiological Approaches to Probing Spinal Circuits.....	462
	<i>Rose Katz and Jean-Charles Lamy</i>	
41	Neuroimaging after Spinal Cord Injury: Evaluating Injury Severity and Prognosis Using Magnetic Resonance Imaging.....	472
	<i>Maxwell Boakye</i>	
42	The Role of Neurophysiology in the Study of Recovery and Spasticity.....	481
	<i>Jens Bo Nielsen</i>	

V Plasticity and Recovery

43	Spinal and Supraspinal Plasticity after Spinal Cord Injury	489
	<i>Serge Rossignol and Alain Frigon</i>	
44	The Human Central Pattern Generator and Its Role in Spinal Cord Injury Recovery	502
	<i>Volker Dietz</i>	

45	Electrophysiological Predictors of Lower Limb Motor Recovery: The Rehabilitation Perspective	513
	<i>Jessica Hillyer and Susan Harkema</i>	
46	Somatosensory Function and Recovery after Spinal Cord Injury: Advanced Assessment of Segmental Sensory Function	528
	<i>John L. Kipling Kramer, John D. Steeves, and Armin Curt</i>	
47	Electrical Stimulation Following Spinal Cord Injury	538
	<i>Graham H. Creasey</i>	
48	Operant Conditioning of Spinal Reflexes to Improve Motor Function after Spinal Cord Injury	545
	<i>Aiko K. Thompson and Jonathan R. Wolpaw</i>	
49	Functional Restoration through Robotics	558
	<i>Martin Bagginstos, Geoffrey Ling, and James M. Ecklund</i>	
50	Peripheral Nerve Grafts and the Repair of Axonal Circuits Following Spinal Cord Injury	568
	<i>H. Francis Farhadi and Allan D. Levi</i>	

VI Resources

51	Population-Based Spinal Cord Injury Registries: Potential Impacts and Challenges	583
	<i>Marcel F. Dvorak, Catherine A. McGuinness, Michael G. Fehlings, and Vanessa K. Noonan</i>	
52	Resources to Empower and Expand the Opportunities of People with Spinal Cord Injury	593
	<i>Kay Harris Kriegsmann, Sara Palmer, and Jeffrey B. Palmer</i>	

VII Achieving Success

53	Neurogenomic and Neuroproteomic Approaches to Studying Neural Injury	605
	<i>Joy D. Guingab-Cagmat, Firas H. Kobeissy, Mary V. Ratliff, Peng Shi, Zhiqun Zhang, and Kevin K. W. Wang</i>	
54	Breakthroughs of the Last Twenty Years	619
	<i>Kevin Chao, Terry C. Burns, Maxwell Boakye, and Michael G. Fehlings</i>	

Index	633
