

Inhaltsverzeichnis

Vorwort	III
Inhaltsverzeichnis.....	V

Vortragsreihe

Noel Solomons, Klaus Schümann

Problems of adequate Iron Supply in Developing Countries.....	1
---	---

Spiros Pergantis

Nanoparticle Detection: A new challenge for metal speciation analysis.....	3
--	---

Richard Ortega

Chemical Imaging and Speciation of Iron in Cells using Synchrotron Radiation based Techniques	4
---	---

Volker Nischwitz

Speciation – Pharmaceuticals – Labelling (V, Pt, Se)	11
--	----

Lukas Kühn, Liviu Vanoacia, Deepak Darshan, Larry Richman, Klaus Schümann

Gewebe-spezifische Deletion des Ferritin H Gens beeinträchtigt die zelluläre Eisenhomöostase und die korrekte Eisenabsorption in Mäusen	12
---	----

Bruno Galy

Molecular Control of Mammalian Iron Metabolism.....	22
---	----

Günter Weiss

Macrophages, iron and infection - a classical triad.....	24
--	----

Dirk Haller

Eisen und chronisch entzündliche Darmerkrankungen – neue tierexperimentelle Befunde	28
---	----

Kurzvorträge

<i>Catherine Ionescu Véronique Vacchina, Ryszard Lobinski, David Bravo</i> Hyphenation of Capillary Electrophoresis with an Inductively Coupled Plasma Mass Spectrometry Detector permits Speciation and Quantification of Metal Glycinate in Feed Premixes	30
<i>Bernhard Michalke</i> About the Manganese Speciation Project: An Analytical Chemistry Approach to Increase Knowledge about Manganese dependent Parkinsonism ...	37
<i>Anna P. Kipp, Regina Brigelius-Flohé</i> Biomarker für den Selenstatus	44
<i>Barbara Troesch</i> Novel Approaches to reduce Iron Exposure in Humans – Use of Phytase	50
<i>Friedrich Schöne, R. Kirmse, S. Müller, H. Lenz, B. Kästner</i> Iron Content of Meat in Farm Animals – Effects of Species, Age and Retail Cut	59

Posterbeiträge

<i>Stefanie Volland, Kathrin Gaar, Bernhard Michalke, Ursula Lütz-Meindl</i> Impact of chromium and iron and their intracellular sequestration in the unicellular green alga <i>Micrasterias denticulata</i>	64
<i>Christiane Mair, Christoph Peham, Karl Schedle</i> Effect of dietary inclusion of phytogenics or lignin rich fibre on the total tract apparent digestibility patterns as well as bone mineralisation in grower-finisher pigs	66
<i>Qimeng Li, Christiane Mair, Karl Schedle, Isabella Hellmayr, Wilhelm Windisch</i> Antioxidative enzyme activity and lipid peroxide level in liver and muscle of grower-finisher pigs fed increasing iodine concentrations as iodide or iodate	68
<i>Christiane Becker, Carina Lassner, Rudolf Stückler, Wilhelm Windisch</i> Occurrence of Cadmium and Lead in Austrian beef, pork, chicken and turkey meat.....	76

<i>Stefan Hesse, T. Limburg, J.W. Einax</i> Speziesanalytik ausgewählter Arsenverbindungen mittels Kopplung HPLC-HR CS AAS.....	83
<i>Michael Raessler</i> Modifier-freie Eisenbestimmung in einer stark protein-haltigen Matrix mittels Graphitofen-AAS	94
<i>Catherine Ionescu Véronique Vacchina, Ryszard Lobinski, David Bravo</i> Use of Capillary Electrophoresis coupled with Inductively Coupled Plasma Mass Spectrometry (CE-ICP-MS) as a tool for identification or quantification of Copper and Manganese glycinate complexes in feeds and after in vitro gastro intestinal simulations.....	99
<i>Vanessa J. Arias, Elizabeth A. Koutsos, K.R. Perryman</i> Dietary copper source and level lead to differences in plasma that modulate the inflammatory response in cultured macrophages.....	106
<i>G.L. Allee, K.R. Perryman, T.J. Price</i> Effects of Feeding Tribasic Copper Chloride or Copper Sulfate on Growth and Efficiency of Nursery Pigs	110
