

# Contents

<b>1</b>	<b>Introduction .....</b>	<b>1</b>
1.1	Background Information.....	1
1.2	Microfluidic Devices for Cell Analysis .....	2
1.2.1	Materials for Fabricating Microfluidic Devices .....	3
1.2.2	Flow Control in Microfluidic Devices .....	4
1.3	Cell Capture and Culture on Microfluidic Devices .....	6
1.3.1	Cell Capture on Microfluidic Devices .....	6
1.3.2	Cell Culture on Microfluidic Devices.....	8
1.4	Cell Sorting and Separation on Microfluidic Devices .....	9
1.5	Cell Stimulation and Detection on Microfluidic Devices .....	12
1.5.1	Cell Stimulation on Microfluidic Devices .....	12
1.5.2	Cell Secretion Detection on Microfluidic Devices .....	13
1.6	Research Orientation and Significance of This Thesis .....	17
	References .....	18
<b>2</b>	<b>Analysis of Herbicides on a Single C30 Bead via the Platform Combined Microfluidic Device with ESI-Q-TOF-MS .....</b>	<b>27</b>
2.1	Introduction .....	27
2.2	Experimental Section .....	28
2.2.1	Reagents and Materials .....	28
2.2.2	Fabrication of Microfluidic Devices .....	29
2.2.3	Sample Preparation .....	30
2.2.4	Single Particle Adsorption .....	30
2.2.5	Single Particle Manipulation and Elution .....	32
2.2.6	Mass Spectrometry Settings.....	32
2.3	Results and Discussion .....	33
2.3.1	Combination of Microfluidic Device and Mass Spectrum....	33
2.3.2	Optimization of the Sample Preparation.....	34
2.3.3	Propazine Analysis by Single C30 Bead .....	34

2.3.4	Herbicides Mixture Elution and Identification .....	36
2.3.5	Analysis of Vegetable Samples .....	38
2.4	Conclusion .....	40
	References .....	40
<b>3</b>	<b>Monitoring of Glutamate Release from Neuronal Cell Based on the Analysis Platform Combining the Microfluidic Devices with ESI-Q-TOF MS .....</b>	<b>43</b>
3.1	Introduction .....	43
3.2	Experimental Section .....	44
3.2.1	Reagents and Materials .....	44
3.2.2	Fabrication of Microfluidic Devices .....	45
3.2.3	Fabrication of Integrated MEC for Sample Pretreatment .....	46
3.2.4	Mass Spectrometry Settings .....	49
3.2.5	Biological Experiments .....	49
3.3	Results and Discussion .....	51
3.3.1	The MEC for Pretreatment .....	52
3.3.2	Evaluation of the MEC .....	52
3.3.3	Cell Culture and Drug Exposure on Microfluidic Chips .....	54
3.3.4	Monitoring A $\beta$ 42-Induced Glutamate Release .....	55
3.3.5	Effect of Carnosine Against the A $\beta$ 42-Induced Neurotoxicity .....	57
3.4	Conclusions .....	59
	References .....	60
<b>4</b>	<b>Microfluidic Device with Integrated Porous Membrane for Cell Sorting and Separation .....</b>	<b>61</b>
4.1	Introduction .....	61
4.2	Experimental Section .....	62
4.2.1	Reagents and Materials .....	62
4.2.2	The Integrated Cell Sorter Device .....	62
4.2.3	Fabrication of Soft Lithography Molds .....	63
4.2.4	Fabrication of the 3D Microfluidic Device .....	64
4.2.5	Samples and Setup .....	65
4.3	Results and Discussion .....	67
4.3.1	Fabrication of PDMS Porous Membrane .....	67
4.3.2	Fabrication and Pore Size Control of the POM-Mold .....	68
4.3.3	Microvalve System for Cell Sorting .....	71
4.3.4	Aligned Overlap of Porous Membranes for the Fabrication of Smaller Pores .....	73
4.3.5	Polystyrene Microbeads Sorting Process .....	75
4.3.6	Whole Blood Cells Sorting Process .....	77
4.4	Conclusions .....	81
	References .....	81

<b>5</b>	<b>Cell Co-culture and Signaling Analysis Based on Microfluidic Devices Coupling with ESI-Q-TOF MS</b>	<b>83</b>
5.1	Introduction	83
5.2	Experimental Section	84
5.2.1	Reagents and Materials	84
5.2.2	Design and Fabrication of Soft Lithography Mold	85
5.2.3	Design and Fabrication of Microfluidic Devices	87
5.2.4	General Cell Culture and Staining	88
5.2.5	Co-culture of PC12 and GH3 Cells on Microfluidic Device	90
5.2.6	Drug Exposure	91
5.2.7	Pretreatment Procedure	91
5.2.8	Mass Spectrometry Settings	91
5.3	Results and Discussion	92
5.3.1	Evaluation of the Mass Diffusion Rate in the Co-culture Microfluidic Channels	93
5.3.2	Mass Diffusion Effect on the Cell Culture	94
5.3.3	PC12 and GH3 Cell Induction Under Co-culture Conditions	95
5.3.4	Evaluation of the Micro-SPE Column	98
5.3.5	Inhibition of rGH Secretion from GH3 Cells by Dopamine Released from PC12 Cells	100
5.4	Conclusion	102
	References	102
