

Contents

Part I Anatomy

1 Anatomy of the Ocular Vasculatures	3
Gerard A. Luty, Imran Bhutto, and Donald Scott McLeod	

Part II Measurement of Ocular Blood Flow

2 Determination of Ocular Blood Flows with the Microsphere Method	25
Siv F.E. Nilsson and Albert Alm	
3 Laser Doppler Flowmetry in Animals	49
Jeffrey W. Kiel and Herbert A. Reitsamer	
4 Oxygen Measurements in Animals	65
Robert A. Linsenmeier	
5 Measurement of Ocular Blood Flow: Angiography	95
Sebastian Wolf	
6 Measurement of Retinal Vessel Diameters	101
Gerhard Garhöfer and Walthard Vilser	
7 Laser Doppler Techniques for Ocular Blood Velocity and Flow	123
Charles E. Riva	
8 Color Doppler Imaging	147
Ingeborg Stalmans, Selim Orgül, and Leopold Schmetterer	
9 Other Approaches	159
Gerhard Garhöfer and Leopold Schmetterer	

Part III Physiology

10 Systemic Determinants	173
John V. Lovasik and Hélène Kergoat	
11 Local Determinants	211
Jeffrey W. Kiel	

12 Neural Control of Ocular Blood Flow	243
Anton Reiner, Malinda E.C. Fitzgerald, and Chunyan Li	
13 Endothelial and Adrenergic Control	311
Gerhard Garhöfer and Leopold Schmetterer	
14 Retinal Ischemia in Relation to Glaucoma and Neuroprotection	347
Neville N. Osborne	

Part IV Disease

15 Ocular Blood Flow in Diabetes: Contribution to the Microvascular Lesions of Diabetic Retinopathy	365
Tim M. Curtis and Tom A. Gardiner	
16 Age-Related Macular Degeneration: Hemodynamic Changes	389
Constantin J. Pournaras, Efstratios Mentrinos, and Jean-Antoine C. Pournaras	
17 The Role of Ocular Blood Flow Abnormalities in the Pathogenesis of Glaucoma	411
Balwantray C. Chauhan	
18 Ocular Blood Flow in Disease: Other Diseases	429
Makoto Araie and Junko Kami	
19 Systemic Diseases: Cardiovascular Disease and Ocular Manifestation	433
Ghazaleh Gouya and Michael Wolzt	
Index	451
