|----------|--------------------------------------------|-----------|
| <b>1</b> | <b>Generalities for Positive Maps</b>      | <b>1</b>  |
| 1.1      | Basic Definitions                          | 1         |
| 1.2      | Completely Positive Maps                   | 2         |
| 1.3      | Inequalities                               | 9         |
| 1.4      | The Adjoint Map                            | 10        |
| 1.5      | Notes                                      | 11        |
| <b>2</b> | <b>Jordan Algebras and Projection Maps</b> | <b>13</b> |
| 2.1      | Jordan Properties of Positive Maps         | 13        |
| 2.2      | Projection Maps                            | 17        |
| 2.3      | Spin Factors                               | 22        |
| 2.4      | Notes                                      | 26        |
| <b>3</b> | <b>Extremal Positive Maps</b>              | <b>27</b> |
| 3.1      | General Properties of Extremal Maps        | 27        |
| 3.2      | Jordan Homomorphisms                       | 30        |
| 3.3      | Maps which Preserve Vector States          | 34        |
| 3.4      | Nonextendible Maps                         | 40        |
| 3.5      | A Radon-Nikodym Theorem                    | 44        |
| 3.6      | Notes                                      | 47        |
| <b>4</b> | <b>Choi Matrices and Dual Functionals</b>  | <b>49</b> |
| 4.1      | The Choi Matrix                            | 49        |
| 4.2      | The Dual Functional of a Map               | 57        |
| 4.3      | Notes                                      | 61        |
| <b>5</b> | <b>Mapping Cones</b>                       | <b>63</b> |
| 5.1      | Basic Properties                           | 63        |
| 5.2      | The Extension Theorem                      | 70        |
| 5.3      | Notes                                      | 73        |
| <b>6</b> | <b>Dual Cones</b>                          | <b>75</b> |
| 6.1      | Basic Results                              | 75        |

|          |                                                       |            |
|----------|-------------------------------------------------------|------------|
| 6.2      | Examples of Dual Cones . . . . .                      | 80         |
| 6.3      | Maps on the $2 \times 2$ Matrices . . . . .           | 83         |
| 6.4      | Tensor Products . . . . .                             | 90         |
| 6.5      | Notes . . . . .                                       | 93         |
| <b>7</b> | <b>States and Positive Maps . . . . .</b>             | <b>95</b>  |
| 7.1      | Positivity Properties of Linear Functionals . . . . . | 95         |
| 7.2      | PPT-States . . . . .                                  | 97         |
| 7.3      | The Choi Map . . . . .                                | 98         |
| 7.4      | Entanglement . . . . .                                | 102        |
| 7.5      | Super-positive Maps . . . . .                         | 105        |
| 7.6      | Notes . . . . .                                       | 110        |
| <b>8</b> | <b>Norms of Positive Maps . . . . .</b>               | <b>113</b> |
| 8.1      | Norms of Maps . . . . .                               | 113        |
| 8.2      | Notes . . . . .                                       | 119        |
