E-Business and Social Networks: Tapping Dynamic Niche Markets Using Language-Action and Artificial Intelligence	3
<i>David A. Marca</i>	

Part I: Software Engineering

Modelling the Requirements of Rich Internet Applications in WebRe ...	27
<i>Esteban Robles Luna, M.J. Escalona, and G. Rossi</i>	
A Survey on How Well-Known Open Source Software Projects Are Tested	42
<i>Davide Tosi and Abbas Tahir</i>	
Systematic Review on Software Product Line Testing	58
<i>Beatriz Pérez Lamancha, Macario Polo, and Mario Piattini</i>	
A Programming Language That Combines the Benefits of Static and Dynamic Typing	72
<i>Francisco Ortín and Miguel García</i>	
Main Principles on the Integration of SOC and MDD Paradigms to Business Processes: A Systematic Review	88
<i>Andrea Delgado, Francisco Ruiz, Ignacio García-Rodríguez de Guzmán, and Mario Piattini</i>	
A Model-Based Simulation Environment for Structured Textual Use Cases	109
<i>Veit Hoffmann and Horst Lichter</i>	
Automatic Co-evolution of Models Using Traceability	125
<i>Bastien Amar, Hervé Leblanc, Bernard Coulette, and Philippe Dhaussy</i>	
FocalTest: A Constraint Programming Approach for Property-Based Testing	140
<i>Matthieu Carlier, Catherine Dubois, and Arnaud Gotlieb</i>	
HARM: Hacker Attack Representation Method	156
<i>Peter Karpati, Andreas L. Opdahl, and Guttorm Sindre</i>	
An Architecture Based Deployment of Component Distributed Systems	176
<i>Nouredine Belkhatir and Mariam Dibo</i>	

Part II: Distributed Systems

A Heuristic Algorithm for Finding Edge Disjoint Cycles in Graphs 191
Renren Dong and Ray Kresman

Part III: Data Management

Distortion-Free Authentication Watermarking 205
Sukriti Bhattacharya and Agostino Cortesi

FRIDAL: A Desktop Search System Based on Latent Interfile
Relationships 220
Tetsutaro Watanabe, Takashi Kobayashi, and Haruo Yokota

Fine Grained Access Control for Relational Databases by Abstract
Interpretation 235
Raju Halder and Agostino Cortesi

Part IV: Knowledge-Based Systems

“Facets” and “Prisms” as a Means to Achieve Pedagogical Indexation
of Texts for Language Learning: Consequences of the Notion of
Pedagogical Context 253
Mathieu Loiseau, Georges Antoniadis, and Claude Ponton

Author Index 269
