

Contents

1 von Recklinghausen Disease: 130 Years	1
Vincent M. Riccardi	
2 Clinical Diagnosis and Atypical Forms of NF1	17
Sirkku Peltonen and Minna Pöyhönen	
3 Management and Treatment of “Complex Neurofibromatosis 1”	31
Rosalie E. Ferner and Susan M. Huson	
4 Mortality in Neurofibromatosis 1	47
Gareth R. Evans	
5 The Cognitive Profile of NF1 Children: Therapeutic Implications	55
Natalie A. Pride and Kathryn N. North	
6 Clinical Expression of NF1 in Monozygotic Twins	71
Elizabeth K. Schorry and Emily Sites	
7 Value of Whole Body MRI in Patients with NF1	83
Victor-Felix Mautner	
8 Quality of Life in NF1	93
Patricia Birch and J.M. Friedman	
9 <i>NF1</i> Gene: Promoter, 5' UTR, and 3' UTR	105
Hua Li and Margaret R. Wallace	
10 The Germline Mutational Spectrum in Neurofibromatosis Type 1 and Genotype–Phenotype Correlations	115
David N. Cooper and Meena Upadhyaya	
11 Splicing Mechanisms and Mutations in the <i>NF1</i> Gene	135
Marco Baralle and Diana Baralle	

12	<i>NF1</i> Germline and Somatic Mosaicism	151
	Ludwine Messiaen and Jing Xie	
13	Deep Intronic <i>NF1</i> Mutations and Possible Therapeutic Interventions	173
	Conxi Lázaro, Juana Fernández-Rodríguez, and Eduard Serra	
14	<i>NF1</i> Microdeletions and Their Underlying Mutational Mechanisms	187
	Hildegard Kehrer-Sawatzki and David N. Cooper	
15	The Somatic Mutational Spectrum of the <i>NF1</i> Gene	211
	Meena Upadhyaya, Nadia Chuzhanova, and David N. Cooper	
16	Relationship Between <i>NF1</i> and Constitutive Mismatch Repair Deficiency	235
	Katharina Wimmer	
17	Insights into <i>NF1</i> from Evolution	253
	Britta Bartelt-Kirbach and Dieter Kaufmann	
18	Modifier Genes in <i>NF1</i>	269
	Eric Pasmant, Dominique Vidaud, and Pierre Wolkenstein	
19	Dissection of Complex Genetic and Epigenetic Interactions Underlying <i>NF1</i> Cancer Susceptibility Using Mouse Models	287
	Georgette N. Jones and Karlyne M. Reilly	
20	Neurofibromin: Protein Domains and Functional Characteristics	305
	Klaus Scheffzek and Stefan Welti	
21	Molecular Basis of Bone Abnormalities in <i>NF1</i>	327
	David A. Stevenson and Florent Elefteriou	
22	<i>NF1</i>-Associated Optic Glioma	341
	Anne C. Solga and David H. Gutmann	
23	Molecular Basis of Cardiovascular Abnormalities in <i>NF1</i>	353
	Brian K. Stansfield, David A. Ingram, Simon J. Conway, and Jan M. Friedman	
24	Molecular Basis of Glomus Tumours	367
	Hilde Brems, Eric Legius, and Douglas R. Stewart	
25	Pheochromocytoma and <i>NF1</i>	381
	Birke Bausch and Hartmut P.H. Neumann	
26	Molecular and Cellular Basis of Human Cutaneous Neurofibromas and Their Development	393
	Juha Peltonen, Eeva-Mari Jouhilahti, and Sirkku Peltonen	

27 Somatic Copy Number Alterations: Gene and Protein Expression Correlates in NF1-Associated Malignant Peripheral Nerve Sheath Tumors	405
Meena Upadhyaya and David N. Cooper	
28 Pathologic and Molecular Diagnostic Features of Peripheral Nerve Sheath Tumors in NF1	429
Anat Stemmer-Rachamimov and G. Petur Nielsen	
29 Malignant Peripheral Nerve Sheath Tumors: Prognostic and Diagnostic Markers and Therapeutic Targets	445
Holly Meany, Brigitte C. Widemann, and Nancy Ratner	
30 NF1 Mutations in Hematologic Cancers	469
Tiffany Chang and Kevin Shannon	
31 Legius Syndrome: Diagnosis and Pathology	487
Hilde Brems, Ludwine Messiaen, and Eric Legius	
32 The RASopathies: Syndromes of Ras/MAPK Pathway Dysregulation	497
William E. Tidyman and Katherine A. Rauen	
33 Advances in NF1 Animal Models and Lessons Learned	513
Ophélie Maertens and Karen Cichowski	
34 <i>Drosophila</i>: An Invertebrate Model of NF1	523
James A. Walker, Jean Y. Gouzi, and André Bernards	
35 Zebrafish Model for NF1	535
Arun Padmanabhan and Jonathan A. Epstein	
36 Cell of Origin and the Contribution of Microenvironment in NF1 Tumorigenesis and Therapeutic Implications	549
Johanna Buchstaller, D. Wade Clapp, Luis F. Parada, and Yuan Zhu	
37 Molecular and Cellular Approaches to Cognitive Impairments Associated with NF1 and Other Rasopathies	569
Yong-Seok Lee and Alcino J. Silva	
38 Ras Signaling Pathway in Biology and Therapy of Malignant Peripheral Nerve Sheath Tumors	589
Faris Farassati	
39 MicroRNA and NF1 Tumorigenesis	611
Adrienne M. Flanagan and Nadège Presneau	
40 Translational/Clinical Studies in Children and Adults with Neurofibromatosis Type 1	625
Bruce Korf, Brigitte Widemann, Maria T. Acosta, and Roger J. Packer	

41 The Role of NF1 Lay Foundations: Future Vision 659
Kim Hunter-Schaedle

42 Social Stigma in Neurofibromatosis 1 673
Joan Ablon

43 Personalized Medicine in NF1 683
David Viskochil

**44 Neurofibromatosis Type 1: Future Directions
(Where Do We Go from Here?) 691**
Luis F. Parada
