## Section I:

### Careful Patient Evaluation and Diagnosis 1

Chapter 1	Periodontal-Prosthodontic Treatment for Smile Enhancement <i>Wael Att, Stefan Koppa</i>	3
Chapter 2	The Key Role of Occlusion in Obtaining a Reliable Functional and Esthetic Oral Rehabilitation <i>Luigi Galasso</i>	17
Chapter 3	The Need for Orthodontic Treatment Due to Extraction Without Replacement <i>Birte Melsen</i>	37
Chapter 4	Immediate Loading of Multiple Single Implant Crowns in the Esthetic Zone <i>Tiziano Testori, Fabio Scutellà</i>	47
Chapter 5	Use of Orthodontic Therapy to Improve the Esthetic and Periodontal Prognosis of Root Coverage Surgery <i>Giovanni Zucchelli, Giulio Alessandri Bonetti</i>	59

## Section II:

# Interdisciplinary Treatment Planning

75

Chapter 6	Comprehensive Implant and Restorative Treatment Using a Novel Guided Bone Regeneration Approach: Open Barrier Membrane Technique <i>Eiji Funakoshi</i>	77
Chapter 7	Implant Failure and Subsequent Treatment: Report of a Complex Case <i>Ueli Grunder</i>	89
Chapter 8	Interdisciplinary Approach for Optimizing Esthetics: Digital Technology and Excellence in Dental Esthetics <i>Luc Rutten, Patrick Rutten, Iñaki Gamborena</i>	101
Chapter 9	Interdisciplinary Management of Complex Implant Treatment <i>Masao Yamazaki</i>	123
<b>Section III: Minimally Invasive Approach</b>		<b>137</b>
Chapter 10	Multiple Microdontia: Orthodontic Treatment and Adhesive Composite Restorations for Esthetic and Functional Correction <i>Antonio Cerutti, Aldo Crescini</i>	139

Chapter 11	Early Intervention for Severe Tooth Wear Using Conservative Adhesive Restorations <i>Didier Dietschi</i>	153
Chapter 12	Direct Esthetic Restorations in Posterior Teeth: Criteria for Intervention and Clinical Protocol <i>Federico Ferraris</i>	167
Chapter 13	Minimally Invasive Is Not Good Enough: Noninvasive, Simple Measures for a Very Complex Case <i>Amir Horowitz</i>	183
Chapter 14	Improving the Esthetics of Posterior Restorations Using Indirect Composite Inlays <i>Francesco Mangani</i>	193
Chapter 15	Preserving the Natural Dentition with Minimally Invasive Treatment and Maximum Results in a Complex Clinical Case <i>Giulio Rasperini, Valerio Maccagnola, Mirco Raffaini</i>	209
Chapter 16	No-Prep Veneers: An Efficient, Predictable, and Minimally Invasive Approach to Restorative Treatment <i>Oliver Reichert di Lorenzen</i>	227
Chapter 17	Selecting the Optimal Restorative Modality for Diastemata Closure <i>Roberto Carlo Spreafico</i>	239

## Section IV: Patient-Centered Treatment 255

Chapter 18	Treatment of a Class II Malocclusion with Molar Distalization and Fixed Appliances	257
	<i>Vittorio Cacciafesta</i>	
Chapter 19	A Prosthodontic Approach to Achieving Functional and Esthetic Results in a Complex Rehabilitation: Dentistry Beyond the Beautiful Smile	277
	<i>Martha Lucía Galindo Restrepo, Carlo P. Marinello</i>	
Chapter 20	A Rational Approach to Minimally Invasive Esthetic Dentistry	301
	<i>Angelo Putignano, Gianfranco Politano, Vincenzo Musella</i>	
Chapter 21	Accurate Movement with CAD/CAM Technology in Lingual Orthodontics	317
	<i>Rafi Romano</i>	
Chapter 22	Functional and Esthetic Restorative Treatment: Different Cases, Different Challenges	333
	<i>Stefan Schunke</i>
