

Table of Contents

Multimedia Forensics and Counter-Forensics

Blind Median Filtering Detection Using Statistics in Difference Domain	1
<i>Chenglong Chen, Jiangqun Ni, Rongbin Huang, and Jiwu Huang</i>	
Robustness of Color Interpolation Identification against Anti-forensic Operations	16
<i>Wei-Hong Chuang and Min Wu</i>	

Steganalysis

Steganalysis of LSB Replacement Using Parity-Aware Features	31
<i>Jessica Fridrich and Jan Kodovský</i>	
Statistical Detection of LSB Matching Using Hypothesis Testing Theory	46
<i>Rémi Cogranne, Cathel Zitzmann, Florent Retraint, Igor Nikiforov, Lionel Fillatre, and Philippe Cornu</i>	
Textural Features for Steganalysis	63
<i>Yun Q. Shi, Patchara Sutthiwan, and Licong Chen</i>	
JPEG-Compatibility Steganalysis Using Block-Histogram of Recompression Artifacts	78
<i>Jan Kodovský and Jessica Fridrich</i>	

Data Hiding in Unusual Content

Hiding a Second Appearance in a Physical Relief Surface	94
<i>Yi-Liu Chao and Daniel G. Aliaga</i>	
Blind Robust Watermarking Mechanism Based on Maxima Curvature of 3D Motion Data	110
<i>Ling Du, Xiaochun Cao, Muhua Zhang, and Huazhu Fu</i>	

Steganography

A Game-Theoretic Approach to Content-Adaptive Steganography	125
<i>Pascal Schöttle and Rainer Böhme</i>	
Key-Efficient Steganography	142
<i>Aggelos Kiayias, Alexander Russell, and Narasimha Shashidhar</i>	

Covert Channels

Secret Agent Radio: Covert Communication through Dirty Constellations	160
<i>Aveek Dutta, Dola Saha, Dirk Grunwald, and Douglas Sicker</i>	

Anonymity and Privacy

Lower Bounds for Private Broadcast Encryption	176
<i>Aggelos Kiayias and Katerina Samari</i>	
The Dangers of Composing Anonymous Channels	191
<i>George Danezis and Emilia Käsper</i>	

Watermarking

A New Measure of Watermarking Security Applied on QIM	207
<i>Teddy Furon and Patrick Bas</i>	
Non-Integer Expansion Embedding for Prediction-Based Reversible Watermarking	224
<i>Shijun Xiang</i>	
Walsh-Hadamard Transform in the Homomorphic Encrypted Domain and Its Application in Image Watermarking	240
<i>Peijia Zheng and Jiwu Huang</i>	

Fingerprinting

Asymptotic Fingerprinting Capacity in the Combined Digit Model	255
<i>Dion Boesten and Boris Škorić</i>	
Bias Equalizer for Binary Probabilistic Fingerprinting Codes	269
<i>Minoru Kuribayashi</i>	

Author Index	285
