

Contents

Editorial

- 113 Some Surprising Twists on the Road to Discovering the Contribution of Rare Variants to Complex Diseases**
Thomas, D.C. (Los Angeles, Calif.)
- 118 Population Genetics of Rare Variants and Complex Diseases**
Maher, M.C.; Uricchio, L.H.; Torgerson, D.G.; Hernandez, R.D. (San Francisco, Calif.)
- 129 Using Affected Sib-Pairs to Uncover Rare Disease Variants**
Perdry, H. (Villejuif); Müller-Myhsok, B. (Munich); Clerget-Darpoux, F. (Paris)
- 142 Could Inbred Cases Identified in GWAS Data Succeed in Detecting Rare Recessive Variants Where Affected Sib-Pairs Have Failed?**
Génin, E. (Paris/Brest); Sahbatou, M.; Gazal, S.; Babron, M.-C. (Paris); Perdry, H. (Villejuif); Leutenegger, A.-L. (Paris)
- 153 Identification of Rare Variants from Exome Sequence in a Large Pedigree with Autism**
Marchani, E.E.; Chapman, N.H.; Cheung, C.Y.K.; Ankenman, K.; Stanaway, I.B. (Seattle, Wash.); Coon, H.H. (Salt Lake City, Utah); Nickerson, D.; Bernier, R.; Brkanac, Z.; Wijsman, E.M. (Seattle, Wash.)
- 165 Rare Variant Association Testing for Next-Generation Sequencing Data via Hierarchical Clustering**
Tachmazidou, I. (Hinxton); Morris, A. (Oxford); Zeggini, E. (Hinxton)
- 172 Single-Variant and Multi-Variant Trend Tests for Genetic Association with Next-Generation Sequencing That Are Robust to Sequencing Error**
Kim, W. (Tampa, Fla.); Londono, D.; Zhou, L.; Xing, J.; Nato, A.Q.; Musolf, A.; Matise, T.C. (Piscataway, N.J.); Finch, S.J. (Stony Brook, N.Y.); Gordon, D. (Piscataway, N.J.)
- 184 Incorporating Prior Biologic Information for High-Dimensional Rare Variant Association Studies**
Quintana, M.A.; Schumacher, F.R.; Casey, G. (Los Angeles, Calif.); Bernstein, J.L. (New York, N.Y.); Li, L. (Cleveland, Ohio); Conti, D.V. (Los Angeles, Calif.)

196 Imputation of Rare Variants in Next-Generation Association Studies

Asimit, J.L.; Zeggini, E. (Hinxton)

205 Does Accounting for Gene-Environment Interactions Help Uncover Association between Rare Variants and Complex Diseases?

Kazma, R.; Cardin, N.J.; Witte, J.S. (San Francisco, Calif.)

215 Rare Variants in Complex Traits: Novel Identification Strategies and the Role of de novo Mutations

Jouan, L.; Gauthier, J.; Dion, P.A.; Rouleau, G.A. (Montreal, Que.)
