

Table of Contents

Haptics and Audio in Navigation

Understanding Auditory Navigation to Physical Landmarks	1
<i>David McGookin and Stephen A. Brewster</i>	
Supporting Sounds: Design and Evaluation of an Audio-Haptic Interface	11
<i>Emma Murphy, Camille Moussette, Charles Verron, and Catherine Guastavino</i>	
A Haptic-Audio Interface for Acquiring Spatial Knowledge about Apartments	21
<i>Junlei Yu and Christopher Habel</i>	

Supporting Experiences and Activities

Mobile Haptic Technology Development through Artistic Exploration . . .	31
<i>David Cuartielles, Andreas Göransson, Tony Olsson, and Ståle Stenslie</i>	
Improving Cyclists Training with Tactile Feedback on Feet	41
<i>Dominik Bial, Thorsten Appelman, Enrico Rukzio, and Albrecht Schmidt</i>	
HapticPulse – Reveal Your Heart Rate in Physical Activities	51
<i>Janko Timmermann, Benjamin Poppinga, Susanne Boll, and Wilko Heuten</i>	
Audio-Haptic Simulation of Walking on Virtual Ground Surfaces to Enhance Realism	61
<i>Niels C. Nilsson, Rolf Nordahl, Luca Turchet, and Stefania Serafin</i>	

Object and Interface Interaction

Interacting with Deformable User Interfaces: Effect of Material Stiffness and Type of Deformation Gesture	71
<i>Johan Kildal</i>	
An Interactive and Multi-sensory Learning Environment for Nano Education	81
<i>Karljohan Lundin Palmerius, Gunnar Höst, and Konrad Schönborn</i>	

Augmenting Media with Thermal Stimulation	91
<i>Martin Halvey, Michael Henderson, Stephen A. Brewster, Graham Wilson, and Stephen A. Hughes</i>	
Embodied Interactions with Audio-Tactile Virtual Objects in AHNE . . .	101
<i>Koray Tahiroğlu, Johan Kildal, Teemu Ahmaniemi, Simon Overstall, and Valtteri Wikström</i>	
Test and Evaluation	
Towards an Objective Comparison of Scanning-Based Interaction Techniques	111
<i>Benjamin Poppinga, Martin Pielot, Wilko Heuten, and Susanne Boll</i>	
Knocking Sound as Quality Sign for Household Appliances and the Evaluation of the Audio-Haptic Interaction	121
<i>M. Ercan Altinsoy</i>	
Spectral Discrimination Thresholds Comparing Audio and Haptics for Complex Stimuli	131
<i>Lorenzo Picinali, Christopher Feakes, Davide A. Mauro, and Brian F.G. Katz</i>	
How Does Representation Modality Affect User-Experience of Data Artifacts?	141
<i>Trevor Hogan and Eva Hornecker</i>	
Author Index	153
