

# CONTENTS

TO THE INSTRUCTOR .....	xiii
-------------------------	------

## INTRODUCTION

Where Logic Fits .....	1
The Why of Logic .....	1
What Kind of Logic .....	2
What "Philosophical" Logic Is .....	2
Whence Logic .....	3
And Now a Definition .....	4
To the Student, a Revelation .....	5
Footnotes .....	8
Supplementary Readings .....	8
List of References for Orientation .....	9

## PART ONE: LOGIC OF DEFINITION

### *The First Act of the Mind as a Mind*

#### SIMPLE APPREHENSION

#### Chapter I: The Nature of the Act

The Why of the Act .....	15
The Definition of the Act .....	15
The Proper Object of the Act .....	18
The Psychology of the Act .....	18
To the Student, an Observation .....	19
Supplementary Readings .....	21

#### Chapter II: The Internal Product of the Act: The Concept

The Concept Defined .....	22
Logical Properties of the Concept .....	22
Comprehension .....	22
Extension .....	24
Division of Concepts .....	24
Supplementary Readings .....	26

## Chapter III: The Sign of the Concept: The Term

The Sign .....	28
Necessity of Signs .....	28
Sign Defined .....	29
Division of Signs .....	29
The Term Defined .....	30
Division of Terms .....	30
Properties of Terms .....	32
To the Student, an Exhortation .....	34
Supplementary Readings .....	34

## Chapter IV: Modes of Knowing Proper to the First Act

Why "Modes of Knowing" .....	37
Definition .....	37
Definition Defined .....	37
Kinds of Definitions .....	38
A Good Definition .....	39
Division .....	39
Definition of Division .....	39
Kinds of Division .....	40
A Good Division .....	40
Supplementary Readings .....	41
Footnotes to Part One .....	42

## PART TWO: LOGIC OF PROPOSITIONS

*The Second Act of the Mind*

## JUDGMENT

## Chapter V: The Nature of the Act

Why the "Second" Act .....	45
The Psychology of Judgment .....	46
The Judgment Defined .....	46
Components of Judgments .....	47
Properties of Judgments .....	49
To the Student, a Clarification .....	50
Supplementary Readings .....	51

## Chapter VI: The Internal Product of the Act: The Mental Statement

The Mental Statement Defined .....	53
Components of Mental Statements .....	53
The Rôle of the Mental Statement .....	54

Chapter VII: The Sign of the Mental Statement: The Proposition

The Proposition Defined .....	55
Components of Propositions .....	55
Division of Propositions .....	56
Classification of Propositions into "A," "E," "I," and "O" .....	58
Logical Relations of Propositions .....	60
Opposition .....	60
Conversion .....	62
Obversion .....	66
Supplementary Readings .....	66

Chapter VIII: Mode of Knowing Proper to the Second Act

Immediate Inference .....	69
Kinds of Immediate Inference .....	70
Utility of Immediate Inference .....	70
To the Student, an Application .....	71
Supplementary Readings .....	72
Footnotes to Part Two .....	72

PART THREE: LOGIC OF ARGUMENTATION

*The Third Act of the Mind*

REASONING

Chapter IX: The Nature of the Act

The Psychology of Reasoning .....	77
Reasoning Defined .....	78
Kinds of Reasoning .....	79
To the Student, an Elaboration .....	79

Chapter X: The Internal Product of the Act: Mental Argumentation

Mental Argumentation Defined .....	81
Components of Mental Argumentation .....	81
Division of Mental Argumentation .....	82
The Universal Law of Argumentation .....	83

Chapter XI: The Sign of Argumentation: The Syllogism

The Syllogism Defined .....	84
The Deductive Syllogism .....	84

Defined .....	84
Universal Principles .....	85
Categorical or Assertoric Syllogism .....	86
Figures and Moods of Categorical Syllogisms .....	87
Integration of Moods and Figures .....	89
Perfect Figure, Perfect Moods, and Perfect Syllogism .....	90
Modal Syllogisms .....	92
The Enthymeme .....	92
Sorites .....	93
Compound Syllogisms .....	93
Kinds of Compound Syllogisms .....	94
Polysyllogism .....	95
Classification of Deductive Syllogisms .....	95
Fallacies in Deductive Reasoning .....	96
The Inductive Syllogism .....	97
Defined .....	97
Universal Principle .....	98
Insufficient and Sufficient Induction .....	98
Supplementary Readings .....	99
Footnotes to Part Three .....	101

## PART FOUR: CONTEMPORARY PROBLEMS

### *Scientific Method*

### *The Old and the New*

### *Logical Positivism*

### *Propaganda*

## Chapter XII: The Scientific Method

The Rôle of Induction in Human Reason .....	105
Some Preliminaries to a Definition of Scientific Method .....	105
The Scientific Method Defined .....	106
The Three-Fold Manner of Inductive Inference .....	108
Observation .....	108
Experimentation .....	109
Defined .....	109
Experimental Techniques .....	109
Analogy .....	112
Scientific Concepts .....	114
The Scientific Method at Work .....	115
Supplementary Readings .....	116

## CONTENTS

xi

### Chapter XIII: The Old and the New

To the Student, an Explanation .....	121
Traditional Logic .....	122
The New Logic .....	122
Semantics .....	125
Paradox .....	128
Supplementary Readings .....	129

### Chapter XIV: Logical Positivism

Again, Preliminaries to a Definition .....	136
And Now, the Definition .....	138
The Limitations of Logical Positivism .....	138
Logical Positivism and Traditional Logic .....	139
Supplementary Readings .....	140

### Chapter XV: Propaganda

Propaganda and Logic .....	145
Logic and Propaganda .....	145
"Propaganditis", Its Care and Cure .....	147
Supplementary Readings .....	148
Footnotes to Part Four .....	149
Index .....	151
