|--|------------|
| <b>Plant Epigenetics: A Historical Perspective . . . . .</b>                               | <b>1</b>   |
| Gideon Grafi and Nir Ohad  |            |
| <b>Environment-Induced Chromatin Reorganisation and Plant Acclimation . . . . .</b>        | <b>21</b>  |
| Martijn van Zanten, Federico Tessadori, Anton J.M. Peeters, and Paul Fransz                |            |
| <b>Epigenetic Regulation of Genome Stability in Plants in Response to Stress . . . . .</b> | <b>41</b>  |
| Alex Boyko and Igor Kovalchuk  |            |
| <b>Epigenetic Control of Plant Immunity . . . . .</b>                                      | <b>57</b>  |
| Yusuke Saijo and Eva-Maria Reimer-Michalski  |            |
| <b>Epigenetic Control of Flowering Time . . . . .</b>                                      | <b>77</b>  |
| Theo Zografou and Franziska Turck  |            |
| <b>Hormonal Signaling in Plants and Animals: An Epigenetics Viewpoint . . . . .</b>        | <b>107</b> |
| Andrzej Jerzmanowski and Rafal Archacki  |            |
| <b>Epigenetic Signalling During the Life of Seeds . . . . .</b>                            | <b>127</b> |
| Martijn van Zanten, Yongxiu Liu, and Wim J.J. Soppe  |            |
| <b>Epigenetic Control of Cell Division . . . . .</b>                                       | <b>155</b> |
| Andreas Houben, Dmitri Demidov, and Raheleh Karimi-Ashtiyani                               |            |
| <b>Small RNA-Mediated Control of Development in Plants . . . . .</b>                       | <b>177</b> |
| Angel Emilio Martínez de Alba, Jean-Sébastien Parent, and Hervé Vaucheret                  |            |
| <b>DNA Demethylation and Gene Imprinting in Flowering Plants . . . . .</b>                 | <b>201</b> |
| Jin Hoe Huh and Hyun Jung Rim  |            |
| <b>Transgenerational Epigenetic Inheritance in Plants . . . . .</b>                        | <b>233</b> |
| Hiroshi Sano and Hyun-Jung Kim   |            |
| <b>Index . . . . .</b>   | <b>255</b> |
