

Content

Preface.....	7
Acknowledgements.....	8
An overview of the Mexican fossil fish record. – Katia A. GONZÁLEZ-RODRÍGUEZ, Luis ESPINOSA-ARRUBARRENA and Gerardo GONZÁLEZ-BARBA.....	9
Revisiting the actinopterygian preoperculum. – Kathryn E. MICKLE.....	35
Amiiforms from the Iberian Peninsula: historic review and research prospects. – Hugo MARTÍN-ABAD and Francisco José POYATO-ARIZA.....	73
Outstanding features of a new Late Jurassic pachycormiform fish from the Kimmeridgian of Brunn, Germany and comments on current understanding of pachycormiforms. – Gloria ARRATIA and Hans-Peter SCHULTZE.....	87
The plasticity of gill raker characteristics in suspension feeders: Implications for Pachycormiformes. – Jeff LISTON.....	121
Growth, age and size of the Jurassic pachycormid <i>Leedsichthys problematicus</i> (Osteichthyes: Actinopterygii). – Jeff LISTON, Michael G. NEWBREY, Thomas James CHALLANDS and Colin E. ADAMS.....	145
“ <i>Pholidophorus argentinus</i> ” DOLGOPOL DE SAEZ, 1939 from Upper Jurassic beds of the Neuquén Province of Argentina is not a pholidophoriform but an aspidorhynchid (Actinopterygii, Aspidorhynchiformes). – Soledad GOUIRIC-CAVALLI and Alberto Luis CIONE.....	177
The caudal skeleton of basal teleosts, its conventions, and some of its major evolutionary novelties in a temporal dimension. – Hans-Peter SCHULTZE and Gloria ARRATIA.....	187
Ichthyodectiform fishes from the Late Cretaceous (Campanian) of Arkansas, USA. – Kelly J. IRWIN and Christopher FIELITZ.....	247
Two new paraclupeid fishes (Clupeomorpha: Ellimmichthyiformes) from the Upper Cretaceous of Morocco. – Alison M. MURRAY and Mark V. H. WILSON.....	267
Teleost centrum and jaw elements from the Upper Cretaceous Nemegt Formation (Campanian–Maastrichtian) of Mongolia and a re-identification of the fish centrum found with the theropod <i>Raptor rex kreigsteini</i> . – Michael G. NEWBREY, Donald B. BRINKMAN, Dale A. WINKLER, Elizabeth A. FREEDMAN, Andrew G. NEUMAN, Denver W. FOWLER and Holly N. WOODWARD.....	291
<i>Sapperichthys</i> gen. nov., a new gonorynchid from the Cenomanian of Chiapas, Mexico. – Cesar R. L. AMARAL, Jesús ALVARADO-ORTEGA and Paulo M. BRITO.....	305
The first fossil shell ear and its implications for the evolution and divergence of the Kneriidae (Teleostei: Gonorynchiformes). – Matthew P. DAVIS, Gloria ARRATIA and Thomas M. KAISER.....	325
A new species of the paracanthopterygian <i>Xenyllion</i> (Sphenocephaliformes) from the Mowry Formation (Cenomanian) of Utah, USA. – Michael G. NEWBREY, Alison M. MURRAY, Mark V. H. WILSON, Donald B. BRINKMAN and Andrew G. NEUMAN..	363
Limits and relationships of Paracanthopterygii: A molecular framework for evaluating past morphological hypotheses. – Terry GRANDE, W. Calvin BORDEN and W. Leo SMITH.....	385
Comparative osteology and myology of the caudal fin in the Paracanthopterygii (Teleostei: Acanthomorpha). – W. Calvin BORDEN, Terry GRANDE and W. Leo SMITH.....	419
Miniature armored acanthomorph teleosts from the Albian/Cenomanian (Cretaceous) of Mexico. – Katia A. GONZÁLEZ-RODRÍGUEZ, Hans-Peter SCHULTZE and Gloria ARRATIA.....	457

The second record of a mawsoniid coelacanth from the Lower Cretaceous Crato Formation, Araripe Basin, northeastern Brazil, with comments on the development of coelacanths. – Yoshitaka YABUMOTO and Paulo M. BRITO	489
Lungfish as environmental indicators. – Anne KEMP and Rodney W. BERRELL.....	499
Paleoenvironments and Paleoeecology of the Vertebrate Fauna from a Late Cretaceous Marine Bonebed, Canada. – Stephen L. CUMBAA, Charlie J. UNDERWOOD and Claudia J. SCHRÖDER-ADAMS	509
Additions to the Late Cretaceous (Cenomanian/Turonian) actinopterygian fauna from the Agoult locality, Akrabou Formation, Morocco, and comments on the palaeoenvironment. – Alison M. MURRAY, Mark V. H. WILSON, Stacey GIBB and Brian D. E. CHATTERTON.....	525
Ultraviolet light as a tool for investigating Mesozoic fishes, with a focus on the ichthyofauna of the Solnhofen archipelago. – Helmut TISCHLINGER and Gloria ARRATIA	549
