

Contents

- List of Symbols..... IX
- List of Abbreviations XIII
- List of Figures XV
- List of Tables XIX
- Introduction 1
- 1 Artificial Neural Networks..... 5
 - 1.1 Artificial Neural Network Cell (Perceptron)..... 5
 - 1.2 Artificial Neural Network Models 7
 - 1.2.1 Feedforward Network Models 7
 - 1.2.2 Recurrent Networks 9
 - 1.2.3 Learning Rules 9
 - 1.2.4 Multilayer Perceptron 11
 - 1.2.5 Error Backpropagation Algorithm 12
 - 1.2.6 The Nonlinear Autoregressive Network with Exogenous Inputs (NARX) Type ANN..... 13
 - 1.3 Modeling of a System with ANN..... 15
 - 1.3.1 Advanced Modeling (Series-Parallel Modeling)..... 15
- 2 Genetic Algorithm 19
 - 2.1 Types of Genetic Algorithms..... 21
 - 2.1.1 Micro Genetic Algorithm (μ GA) 21
 - 2.1.2 Steady-State Genetic Algorithm 22
 - 2.1.3 Hierarchic Genetic Algorithm (HGA)..... 22
 - 2.1.4 Messy Genetic Algorithm (mGA)..... 22
 - 2.2 Scheme Theorem and Genetic Algorithm Operators 22
 - 2.2.1 Coding (G) 23
 - 2.2.2 Creating First Population (Σ) 23
 - 2.2.3 Size of the Population (μ) 23
 - 2.2.4 Reproduction (Gap)..... 24
 - 2.2.5 Selection (S)..... 24
 - 2.2.6 Crossover (ω_c)..... 26
 - 2.2.7 Mutation (ω_m)..... 27
 - 2.2.8 Fitness Value Scaling..... 28

3 Ant Colony Optimization (ACO).....	31
3.1 Real Ants.....	31
3.2 Artificial Ants	33
3.3 Ant Colony Algorithm	34
3.3.1 Pheromone Vaporization.....	35
4 An Application for Process System Control.....	37
4.1 Modeling of the System with ANN	39
4.1.1 Collection of the Training Data.....	40
4.1.2 Data Normalization	42
4.1.3 NN Training	42
4.2 PID Controller Design with GA.....	44
4.2.1 Structure of the Designed Controller	44
4.2.2 Genetically Coding of the PID Parameters	46
4.2.3 Learning of the PID Parameters by GA	46
4.2.4 Transformation of the System Output to GA Conformity Value ..	47
4.2.5 Used Genetic Operators	47
4.2.6 Performance of the Genetic-PID Controller.....	48
4.3 PID Controller Design with ACO	54
4.3.1 ACO Parameters	56
4.3.2 Performance of the ACO-PID Controller.....	58
4.4 Ziegler-Nichols (ZN) Method on PID Computation	62
4.4.1 System Response to Step Inputs	64
4.4.2 System Behavior to the Transition between Step Inputs.....	65
4.4.3 Behavior of the System When Distortion Was Imported to the System.....	66
4.4.4 Trajectory Tracking Responses of the ZN-PID Controller	66
5 Conclusion	69
Appendix	73
A.1 Matlab Codes for ACO	73
A.1.1 Ant Colony Optimization Solver.....	73
A.1.2 ACO Cost Function.....	77
A.1.3 Run ACO.....	78
References	79
