Part I Perspectives on Thinking

Problem Solving	3
Michael Öllinger and Vinod Goel	
Heuristic Bias, Conflict, and Rationality in Decision-Making	23
Wim De Neys	
Analogical Processes in Human Thinking and Learning	35
Dedre Gentner and Julie Colhoun	
A Gestalt Perspective on the Psychology of Thinking	49
Michael Wertheimer	
Thought and Reality: A Philosophical Conjecture About Some Fundamental Features of Human Thinking	59
Albrecht von Müller	

Part II Components of Thinking

Categorization and Object Shape	73
Markus Graf	
Comparison	103
Robert L. Goldstone, Sam Day, and Ji Y. Son	
Causal Thinking	123
Michael R. Waldmann	
Conditionals: Their Meaning and Their Use in Reasoning	135
Klaus Oberauer	

Thinking and Memory	147
Matthias Brand and Hans J. Markowitsch	
Perception and the Brain	161
Nikos Logothetis	
Part III Onto- and Phylogenetic Considerations	
A Developmental Perspective on Modularity	179
Annette Karmiloff-Smith	
Theory of Mind	189
Beate Sodian and Susanne Kristen	
The Development of Metacognitive Competences	203
Wolfgang Schneider	
Understanding Apes to Understand Humans: The Case of Object–Object Relations	215
Josep Call	
Part IV Language, Emotion, Culture	
Socializing Cognition	233
Anne Böckler, Günther Knoblich, and Natalie Sebanz	
Thinking and Language: A View from Cognitive Semio-Linguistics	251
Per Aage Brandt	
Thinking and Emotion: Affective Modulation of Cognitive Processing Modes	261
Annette Bolte and Thomas Goschke	
Cultural Differences in Thinking Styles	279
Shihui Han	
Part V Modeling and Neurobiological Aspects	
Natural Selection in the Brain	291
Chrisantha Fernando and Eörs Szathmáry	

**Value and Self-Referential Control: Necessary Ingredients
for the Autonomous Development of Flexible Intelligence.....** 323
Olaf Sporns and Edgar Körner

Cortical Connectivity: The Infrastructure of Thoughts..... 337
Giorgio M. Innocenti

Models as Tools to Aid Thinking 347
