

Part I Epidemiology and Clinical Presentation

1 Clinical Presentation and Differential Diagnosis 3
Bart L. Scott

2 Epidemiology and Etiology 9
Anneclaire J. De Roos

Part II Pathology, Pathophysiology, and Staging

3 Cytogenetic Diagnosis of Myelodysplastic Syndromes 41
Harold J. Olney and Michelle M. Le Beau

4 MDS Stem Cell Biology 73
Sarah M. Greenblatt, H. Joachim Deeg, and Stephen D. Nimer

5 The Biology of Myelodysplastic Syndrome Associated with Isolated del(5q) 85
Martin Jadersten and Aly Karsan

6 A Personalized Molecular Pathogenesis of MDS 97
Gustavo Rivero and Steven D. Gore

7 Myelodysplastic/Myeloproliferative Neoplasms 111
Manojkumar Bupathi, Ramon V. Tiu, and Jaroslaw P. Maciejewski

8 Classification and Staging of Myelodysplastic Syndromes 127
Torsten Haferlach and Ulrike Bacher

9 Immunophenotyping in Myelodysplastic Syndromes 141
Wolfgang Kern and Arjan A. van de Loosdrecht

10 Prognostic Models for Patients with Myelodysplastic Syndromes 153
Guillermo Garcia-Manero

Part III Treatment

11 Management of Low-Risk MDS	171
David T. Bowen	
12 Management of High-Risk Myelodysplastic Syndrome	189
Amer M. Zeidan and Steven D. Gore	
13 Hematopoietic Cell Transplantation (HCT)	211
H. Joachim Deeg	

Part IV MDS in Children

14 Myelodysplastic Syndrome in Children	231
Charlotte Niemeyer	
Index	241
