

Contents

| | | |
|----------|--|-----------|
| 1 | Introduction | 1 |
| 2 | Coordinate and Time Systems | 5 |
| 2.1 | Geocentric Earth-Fixed Coordinate Systems | 5 |
| 2.2 | Coordinate System Transformations | 8 |
| 2.3 | Local Coordinate System | 10 |
| 2.4 | Earth-Centred Inertial Coordinate System | 12 |
| 2.4.1 | Precession | 13 |
| 2.4.2 | Nutation | 13 |
| 2.4.3 | Earth Rotation | 15 |
| 2.4.4 | Polar Motion | 15 |
| 2.5 | IAU 2000 Framework | 16 |
| 2.6 | Geocentric Ecliptic Inertial Coordinate System | 20 |
| 2.7 | Satellite Fixed Coordinate System | 21 |
| 2.8 | Time Systems | 24 |
| 3 | Keplerian Orbits | 27 |
| 3.1 | Keplerian Motion | 27 |
| 3.2 | Satellite Motion in the Orbital Plane | 30 |
| 3.3 | The Keplerian Equation | 33 |
| 3.4 | State Vector of the Satellite | 36 |
| 4 | Perturbations on the Orbits | 39 |
| 4.1 | Perturbed Equation of Satellite Motion | 39 |
| 4.1.1 | Lagrangian Perturbed Equation of Satellite Motion | 40 |
| 4.1.2 | Gaussian Perturbed Equation of Satellite Motion | 43 |
| 4.2 | Perturbation Forces of Satellite Motion | 46 |
| 4.2.1 | Perturbation of the Earth's Gravitational Field | 46 |
| 4.2.2 | Perturbation of the Sun and the Moon as well as Planets | 51 |
| 4.2.3 | Earth Tide and Ocean Tide Perturbations | 52 |
| 4.2.4 | Solar Radiation Pressure | 58 |

| | | |
|----------|--|------------|
| 4.2.5 | Atmospheric Drag | 63 |
| 4.2.6 | Additional Perturbations | 66 |
| 4.2.7 | Order Estimations of Perturbations | 68 |
| 5 | Solutions of \bar{C}_{20} Perturbation | 69 |
| 5.1 | \bar{C}_{20} Perturbed Equations of Motion | 69 |
| 5.2 | Solutions of \bar{C}_{20} Perturbed Orbit | 72 |
| 5.3 | Properties of the Solutions of \bar{C}_{20} Perturbations | 82 |
| 5.4 | Orbit Correction | 83 |
| 6 | Solutions of Geopotential Perturbations | 87 |
| 6.1 | Introduction | 87 |
| 6.2 | Principle of the Derivations | 88 |
| 6.3 | Singularity-Free Basic Lagrangian Equations of Motion | 93 |
| 6.4 | Simplifying Algorithms | 94 |
| 6.5 | Solutions of Geopotential Disturbance | 97 |
| 6.5.1 | Solutions of D_{20} Perturbation | 100 |
| 6.5.2 | Solutions of D_{21} Perturbation | 102 |
| 6.5.3 | Solutions of D_{22} Perturbation | 105 |
| 6.5.4 | Solutions of D_{30} Perturbation | 109 |
| 6.5.5 | Solutions of D_{31} Perturbation | 111 |
| 6.5.6 | Solutions of D_{32} Perturbation | 116 |
| 6.5.7 | Solutions of D_{33} Perturbation | 124 |
| 6.5.8 | Solutions of D_{40} Perturbation | 134 |
| 6.5.9 | Solutions of D_{41} Perturbation | 137 |
| 6.5.10 | Solutions of D_{42} Perturbation | 145 |
| 6.5.11 | Solutions of $D_{43} \sim D_{88}$ Perturbations | 159 |
| 6.6 | Properties of the Solutions of Geopotential Perturbations | 159 |
| 6.6.1 | Long Term Perturbations | 159 |
| 6.6.2 | Long and Short Periodic Perturbations | 159 |
| 7 | Solutions of Extraterrestrial Disturbances | 161 |
| 7.1 | Analytical Solution of Satellite Orbit Disturbed by Solar Radiation Pressure | 161 |
| 7.1.1 | Introduction | 161 |
| 7.1.2 | Disturbing Force of Solar Radiation Pressure | 162 |
| 7.1.3 | Basic Gaussian Equations of Motion | 165 |
| 7.1.4 | Expansions of Solar Radiation Pressure Force | 168 |
| 7.1.5 | Solutions of the Disturbed Equations | 169 |
| 7.1.6 | Long Periodic and Secular Solutions | 171 |
| 7.1.7 | More Precise Solutions | 173 |
| 7.1.8 | Summary | 183 |
| 7.2 | Discrete Solution of Satellite Orbit Disturbed by Solar Radiation Pressure | 183 |
| 7.2.1 | Three Approximations | 183 |
| 7.2.2 | Discretization and Solution | 184 |
| 7.2.3 | Properties of the Solution | 185 |

| | | |
|----------|--|------------|
| 7.3 | Analytical Solution of Satellite Orbit Disturbed by Atmospheric Drag | 186 |
| 7.3.1 | Introduction | 186 |
| 7.3.2 | Disturbing Force of Atmospheric Drag | 187 |
| 7.3.3 | Basic Gaussian Equations and Expansions of Atmospheric Drag Force | 189 |
| 7.3.4 | Short Periodic Solutions | 192 |
| 7.3.5 | Long Periodic and Secular Solutions | 198 |
| 7.3.6 | Summary | 199 |
| 7.4 | Discrete Solutions of Disturbance of Atmospheric Drag | 200 |
| 7.5 | Analytical Solutions of Satellite Orbit Disturbed by Lunar and Solar as well as Planetary Gravitations | 201 |
| 7.5.1 | Introduction | 202 |
| 7.5.2 | Potential Functions of the Lunar and Solar Gravitational Forces | 202 |
| 7.5.3 | Disturbed Equations of Motion and Solutions of the First Term | 205 |
| 7.5.4 | Solutions of the Second Term | 209 |
| 7.5.5 | Solutions of the Third Term | 215 |
| 7.5.6 | Solutions of the Fourth Term | 222 |
| 7.5.7 | Summary | 224 |
| 7.6 | Ephemeris of the Moon, the Sun and Planets | 224 |
| 8 | Numerical Orbit Determination | 229 |
| 8.1 | Principle of GPS Precise Orbit Determination | 229 |
| 8.1.1 | Algebraic Solution of the Variation Equation | 231 |
| 8.2 | Numerical Integration and Interpolation Algorithms | 233 |
| 8.2.1 | Runge–Kutta Algorithms | 233 |
| 8.2.2 | Adams Algorithms | 238 |
| 8.2.3 | Cowell Algorithms | 241 |
| 8.2.4 | Mixed Algorithms and Discussions | 243 |
| 8.2.5 | Interpolation Algorithms | 244 |
| 8.3 | Orbit-Related Partial Derivatives | 246 |
| 8.3.1 | Geopotential Disturbing Force | 247 |
| 8.3.2 | Perturbation Forces of the Sun and the Moon as well as Planets | 250 |
| 8.3.3 | Tidal Disturbing Forces | 251 |
| 8.3.4 | Solar Radiation Pressure | 254 |
| 8.3.5 | Atmospheric Drag | 256 |
| 9 | Analytical Orbit Determination | 259 |
| 9.1 | Principle of Analytical Orbit Determination | 259 |
| 9.2 | Real Time Ability of Analytical Orbit Determination | 261 |
| 9.2.1 | Limitations of the Numerical Orbit Determination | 261 |
| 9.2.2 | Real Time Ability of Analytical Orbit Determination | 262 |

| | | |
|-----------|--|------------|
| 9.3 | Algorithms of Analytical Orbit Determination | 262 |
| 9.3.1 | Initial Time Selection | 262 |
| 9.3.2 | Sines and Cosines Curve Tables | 262 |
| 9.3.3 | Initial Time Dealing | 262 |
| 9.3.4 | Summation of the Geopotential Disturbances | 263 |
| 9.3.5 | Summation of the Multi-Body Disturbances | 263 |
| 9.3.6 | Solar Radiation Disturbances | 264 |
| 9.3.7 | Atmospheric Drag Disturbances | 264 |
| 10 | Singularity-Free Theory and Discussions | 265 |
| 10.1 | Singularity-Free Orbit Theory of Xu 2008/2010 | 265 |
| 10.1.1 | Problem of Singularity of the Solutions | 265 |
| 10.1.2 | Disturbed Equations in the Case of Circular Orbit | 266 |
| 10.1.3 | Disturbed Equations in the Case of Equatorial Orbit | 267 |
| 10.1.4 | Disturbed Equations in the Case of Circular and Equatorial Orbit | 267 |
| 10.1.5 | Singularity-Free Lagrangian Equations of Motion | 268 |
| 10.1.6 | Simplified Singularity-Free Lagrangian Equations | 269 |
| 10.1.7 | Singularity-Free Gaussian Equations of Motion | 269 |
| 10.2 | On the Singularity Problem in Orbital Mechanics | 270 |
| 10.2.1 | Introduction | 270 |
| 10.2.2 | Basic Lagrangian and Gaussian Equations of Motion | 271 |
| 10.2.3 | Algorithm for Solving Singularity Problem | 275 |
| 10.2.4 | Application 1: Solutions of the Solar Oblateness Disturbance | 282 |
| 10.2.5 | Application 2: Solutions of the Solar Radiation Pressure Disturbance | 285 |
| 10.2.6 | Problems of the Critical Inclination | 287 |
| 10.2.7 | Problems of Traditional Singularity-Free Variables | 287 |
| 10.2.8 | Summary | 288 |
| 10.3 | Summary of Singularity-Free Theory | 288 |
| 10.3.1 | Lagrange-Xu Equations of Satellite Motion | 288 |
| 10.3.2 | Gauss-Xu Equations of Satellite Motion | 293 |
| 10.3.3 | Singularity-Free Solutions of all Disturbances of the 2nd Order | 296 |
| 10.4 | Equations of Motion in Non-Inertial Frame | 297 |
| 10.5 | Discussions | 298 |
| 10.5.1 | Confusion of Non Conservative Force with Conservative Effect | 298 |
| 10.5.2 | Long Term Effects in Extraterrestrial Disturbances | 298 |
| 10.5.3 | Further Studies | 298 |
| 11 | Orbit in Solar Gravity Field | 299 |
| 11.1 | Solar Oblateness and Mercury's Perihelion Precession | 299 |
| 11.1.1 | Introduction | 300 |
| 11.1.2 | Disturbing Function of Solar Oblateness and Disturbed Equations of Motion | 300 |

| | | |
|--|--|------------|
| 11.1.3 | Solutions for Oblateness Disturbance | 303 |
| 11.1.4 | Summary | 312 |
| 11.2 | On Orbital Disturbing Effects of the Solar Radiation | 312 |
| 11.2.1 | Introduction | 313 |
| 11.2.2 | Disturbing Force of Solar Radiation Pressure | 313 |
| 11.2.3 | Gaussian Equations of Planet Motion | 314 |
| 11.2.4 | Solutions of the Disturbed Equations | 315 |
| 11.2.5 | A Modification of the Keplerian Third Law | 317 |
| 11.2.6 | Comparison with the Result of Traditional Mass Correction | 318 |
| 11.2.7 | The Foci of the Orbital Ellipse | 318 |
| 11.2.8 | The Geometric Relationship Between the Two Foci . . . | 319 |
| 11.2.9 | Conclusions of Above Discussion and Derivation . . . | 321 |
| 11.2.10 | A Class of Non-Keplerian Orbits | 322 |
| 11.2.11 | Summary | 322 |
| Appendix 1: IAU 1980 Theory of Nutation | | 325 |
| Appendix 2: Solutions of Geopotential $D_{43} \sim D_{88}$ Perturbations | | 329 |
