

Table of Contents – Part IV

DUXU in Business and the Enterprise

User-Centered Soft Innovation in Established Business Fields	3
<i>Henning Breuer, Zeno Wolze, and Elisabeth Umbach</i>	
The Adoption of Mobile Internet: Industry and Users Experiences	13
<i>Manuel José Damásio, Inês Teixeira-Botelho, Sara Henriques, and Patrícia Dias</i>	
Branding “for All”: Toward the Definition of Inclusive Toolkits of Analysis and Visual Communication for Brand Identities	23
<i>Giuseppe Di Bucchianico, Stefania Camplone, and Stefano Picciani</i>	
Studies on the Design Marketing Strategies in the Experiential Economy through the Case Study of ‘the Starbucks Company’	30
<i>Yung Joo Jang and Eui-Chul Jung</i>	
A Dependency-Sharing Tool for Global Software Engineering	37
<i>Douglas Lee, Allen E. Milewski, and Daniela Rosca</i>	
Management of Individual and Organizational Design Knowledge	47
<i>Tz-Ying Lin and Ding-Bang Luh</i>	
Ultrabooks™ and Windows 8: A <i>touchy</i> UX Story	57
<i>Daria Loi</i>	
The Innovation Machine: Mobile UX Design Combining Information and Persuasion Design to Change Behavior	67
<i>Aaron Marcus, Megan Chiou, Chirag Narula, and Allan Yu</i>	
Web-Portal Solution for Supporting In-Country Reviews	77
<i>Michael Oettli and Tasos Panagis</i>	
User Experience Transformation in Telco Companies: Turkcell Case	84
<i>Seda Alpkaya and Cem Sakarya</i>	
Human-Centered Communication Planning: A Conceptual Approach . . .	94
<i>Tim Schneidermeier, Florian Maier, and Johannes Schricker</i>	
Online Advertising as a New Story: Effects of User-Driven Photo Advertisement in Social Media	103
<i>Min Shin and Da Young Ju</i>	

An Applied Ergonomics Study on IT User Interaction in a Large Hydroelectric Company in the Northeast of Brazil	113
<i>Marcelo Márcio Soares, Fabio Campos, Walter Correia, André Neves, Joao Corte, and Saul Mendonca</i>	
Design and Usability: A Case Study on Selecting Exhibitors for the National Fair of Craftwork – FENEARTE - Recife, PE, Brazil	121
<i>Tibério Tabosa, Virginia Cavalcanti, Ana Andrade, Erimar Cordeiro, and Germannya D’Garcia</i>	
How to Design Experiences: Macro UX versus Micro UX Approach	130
<i>Constantin von Saucken, Ioanna Michailidou, and Udo Lindemann</i>	
A User Centred Approach to Determining the Impact of Faster Broadband on Small and Medium Sized Enterprises	140
<i>Doug Williams, Andy Gower, Joshan Meenowa, and Jon Wakeling</i>	
A User Centred Approach to Evaluating the Future Demand for Bandwidth from Consumers	150
<i>Doug Williams, Andy Gower, Joshan Meenowa, and Jon Wakeling</i>	
Designing for the Web Experience	
Examining User Experience of Cruise Online Search Funnel	163
<i>Asta Adukaite, Alessandro Inversini, and Lorenzo Cantoni</i>	
A User Experience Study of Airline Websites	173
<i>Mahmut Ekşioğlu, Esin Kırış, Tuğba Çakır, Merve Güvendik, Efsane D. Koyutürk, and Merve Yılmaz</i>	
Exploring Offline Browsing Patterns to Enhance the Online Environment	183
<i>Xiaopeng Guo, Jie Gao, Yujing Zeng, and Zhenghua Zhang</i>	
Usability of County Election Websites	193
<i>Cyd Harrell, Andrea Fineman, Ethan Newby, Dana Chisnell, and Whitney Quesenberry</i>	
Analysis of Query Entries of a Job Search Engine	203
<i>Yeolilb Kim</i>	
The Effect of Feedback within Social Media in Tourism Experiences	212
<i>Jeongmi (Jamie) Kim, Daniel R. Fesenmaier, and Steven L. Johnson</i>	
Fulfilled and Missed Requirements for Online Reservation Systems: An Empirical Investigation of Austrian and Swiss Hotels	221
<i>Gerhard F. Knolmayer, Viola Sini, and Polina Chelnokova</i>	

Geospatial Web Interfaces, Why Are They So “Complicated”?	231
<i>Erick López-Ornelas, Rocío Abascal-Mena, and J. Sergio Zepeda-Hernández</i>	
Behind Livia’s Villa: A Case Study for the Devolution of Large Scale Interactive “in-site” to “on-line” Application	238
<i>Guido Lucci Baldassari, Emanuel Demetrescu, Sofia Pescarin, Joakim Eriksson, and Holger Graf</i>	
Evaluating a Web-Based Tool for Crowdsourced Navigation Stress Tests	248
<i>Florian Meier, Alexander Bazo, Manuel Burghardt, and Christian Wolff</i>	
Ergonomic Evaluation of Websites Focusing on the Human-Computer Interface so as to Improve Access to the Web Especially by People with Visual Disabilities	257
<i>André R. Melo, Marcelo Márcio Soares, Fabio Campos, and Walter Correia</i>	
Evaluating Interaction with Websites: Case Study of a Government Website of the Brazilian Ministry of Labor and Employment	265
<i>Fabiane R. Fernandes, Luis Carlos Paschoarelli, and José Carlos P. da Silva</i>	
From the Ground-Up: Role of Usability and Aesthetics Evaluation in Creating a Knowledge-Based Website for the U.S. Army Corps of Engineers	274
<i>Dennis B. Propst, Sarah J. Swierenga, Graham L. Pierce, Eunseong Jeong, and Constantinos K. Coursaris</i>	
Selection and Implementation of Navigation and Information Search Strategies in Bank Web Sites: Turkish Case	284
<i>Özgürol Öztürk and Kerem Rızvanoğlu</i>	
Content as Conversation in Government Websites	294
<i>Janice (Ginny) Redish</i>	
Re-thinking Bookmark Management – Less Choice Is More Efficient . . .	304
<i>Siu-Tsen Shen and Stephen D. Prior</i>	
User-Centered Evaluation of a Discovery Layer System with Google Scholar	313
<i>Tao Zhang</i>	

Product Design

Modeling Consumer Sensitivity for Product Design and Perceived Usability	325
<i>Tareq Ahram, Waldemar Karwowski, and Nabin Sapkota</i>	
Developing ISO 9241-151 Product Certification Process: Challenges	334
<i>Kürşat Çağltay, Ozge Alacam, Nihan Ocak, and Feride Erdal</i>	
Application of Virtual Reality Technologies in Consumer Product Usability	342
<i>Christianne Soares Falcão and Marcelo Márcio Soares</i>	
User Experience on Product Display Page: At Tmall.com	352
<i>Jie Gao, Yujing Zeng, Xiaopeng Guo, and Zhenghua Zhang</i>	
Evaluation of a New Cockpit Color Concept under Mesopic Lighting for Urban Driving	359
<i>Martin Götze, Antonia S. Conti, Andreas Keinath, Tarek Said, and Klaus Bengler</i>	
Proactive Home Furnishings: Inspiring from Interactive Art for Designing Functional Aesthetics in a Space	367
<i>Scottie Chih-Chieh Huang</i>	
Design and Evaluation of a Predictive Model for Smartphone Selection	376
<i>Yerika Jimenez and Patricia Morreale</i>	
TRIGGER: Maximizing Functional Effect of Using Products	385
<i>Kyung-Bo Min and Eui-Chul Jung</i>	
An Experimental Study for Applying Generative Design to Electronic Consumer Products	392
<i>Ming-Huang Lin and Lin-Chien Lee</i>	
dJOE: Design Jigsaw On sitE: A Computational Interface of Displacing Ideas in the Design Productive Process	402
<i>Chia-Hui Nico Lo, Ih-Cheng Lai, and Teng-Wen Chang</i>	
A Proposal of Design Method of Obtaining the Construction Items of Mental Models in Product Design	408
<i>Naoya Okazawa and Toshiki Yamaoka</i>	
Design of Experience: Measuring the Co-production with the Consumer Engagement during the Product Development Process	414
<i>Sabrina Oliveira, Virgínia Kistmann, Adriano Heemann, and Maria Lúcia L.R. Okimoto</i>	

Open Design: Non-professional User-Designers Creating Products for Citizen Science: A Case Study of Beekeepers	424
<i>Robert Phillips, Yelena Ford, Karl Sadler, Sarah Silve, and Sharon Baurley</i>	
Design Guidelines for Coffee Vending Machines	432
<i>Tim Schneidermeier, Manuel Burghardt, and Christian Wolff</i>	
Beyond Comprehension: A Usability Study on User Instruction Manual for Stove with Steam Function	441
<i>Carla Galvão Spinillo and Kelli C.A.S. Smythe</i>	
The Relationship between Preference and Stare Duration on Bicycle....	450
<i>Jin-Han Tseng, Ding-Bang Luh, and Zhi-Hong Liang</i>	
Exploring Prior Experience and the Effects of Age on Product Interaction and Learning	457
<i>Christopher R. Wilkinson, Patrick Langdon, and P. John Clarkson</i>	

Information and Knowledge Design and Visualisation

Visualizing Information Associated with Architectural Design Variations and Simulations	469
<i>David Aurelio</i>	
Texture and Relative Movement in Moving Image	478
<i>Yen-Ting Cho</i>	
Graphical Displays in Eco-Feedback: A Cognitive Approach	486
<i>Rebecca Ford and Beth Karlin</i>	
Dot, Line, Network: Helping Individuals Make Sense of “New Data”	496
<i>Emilie W. Gould</i>	
Developing a Concept Interface Design of ATM Systems Based on Human-Centred Design Processes	506
<i>Satoru Inoue, Hajime Hirako, Toshiya Sasaki, Hisae Aoyama, Yutaka Fukuda, and Kazuhiko Yamazaki</i>	
A Study of the Satisfaction Level of User Experience in Digital Media Space Accordance with Differences in Flow Characteristic	515
<i>Youngtae Kim and Eui-Chul Jung</i>	
Trial of Diagnostic to Find Preferable Job Using the Visual Image Information Interaction: Prototype Development and Evaluation in Global Human Resources Matching Site	525
<i>Akira Kondo and Naoko Kondo</i>	

Determining the Effect of Menu Element Size on Usability of Mobile Applications.....	740
<i>Shelly Welch and Si-Jung Kim</i>	
Author Index	751
