

Table of Contents

Part 1: Summaries of Tutorials

Computational Social Choice (with a Special Emphasis on the Use of Logic)	1
<i>Ulle Endriss</i>	
Binding – Data, Theory, Typology	4
<i>Daniel Hole</i>	
Lukasiewicz Logic: An Introduction	12
<i>Vincenzo Marra</i>	

Part 2: Contributions in Language

The Information Structure and Typological Peculiarities of the Georgian Passive Constructions	17
<i>Rusudan Asatiani</i>	
Discourse Structuring Questions and Scalar Implicatures	35
<i>Anton Benz and Fabienne Salfner</i>	
Towards a Logic of Information Exchange: An Inquisitive Witness Semantics	51
<i>Ivano Ciardelli, Jeroen Groenendijk, and Floris Roelofsen</i>	
Sitting, Standing, and Lying in Frames: A Frame-Based Approach to Posture Verbs	73
<i>Thomas Gamerschlag, Wiebke Petersen, and Liane Ströbel</i>	
Alleged Assassins: Realist and Constructivist Semantics for Modal Modification	94
<i>Bjørn Jespersen and Giuseppe Primiero</i>	
An Outline of a Dynamic Theory of Frames	115
<i>Ralf Naumann</i>	
What Does It Mean for an Indefinite to Be Presuppositional?	138
<i>Umut Özge</i>	

Part 3: Contributions in Logic and Computation

Dynamics of Defeasible and Tentative Inference	155
<i>Patrick Allo</i>	

Decidability for Justification Logics Revisited 166
 Samuel Bucheli, Roman Kuznets, and Thomas Studer

Interpreted Systems Semantics for Process Algebra with Identity
Annotations 182
 Francien Dechesne and Mohammad Reza Mousavi

The Duality of State and Observation in Probabilistic Transition
Systems 206
 *Monica Dinculescu, Christopher Hundt, Prakash Panangaden,
 Joelle Pineau, and Doina Precup*

Model Checking for Modal Intuitionistic Dependence Logic 231
 Johannes Ebbing, Peter Lohmann, and Fan Yang

Coalgebraic Predicate Logic: Equipollence Results and Proof Theory . . . 257
 Tadeusz Litak, Dirk Pattinson, and Katsuhiko Sano

Author Index 277
