

Contents

1	Phytoremediation Protocols: An Overview	1
	Soumya Chatterjee, Anindita Mitra, Sibnarayan Datta, and Vijay Veer	
2	Protocols for Applying Phytotechnologies in Metal-Contaminated Soils	19
	Meri Barbaferi, Jan Japenga, Paul Romkens, Gianniantonio Petruzzelli, and Francesca Pedron	
3	Metal/Metalloid Phytoremediation: Ideas and Future	39
	Miroslaw Mleczek, Aneta Piechalak, Barbara Tomaszewska, Kinga Drzewiecka, and Przemyslaw Nuc	
4	Remediation Mechanisms of Tropical Plants for Lead-Contaminated Environment	59
	Olabisi Peter Abioye, Udemé Joshua Josiah Ijah, and Sesan Abiodun Aransiola	
5	Impact of Metal/Metalloid-Contaminated Areas on Plant Growth	79
	Miroslaw Mleczek, Andrzej Mocek, Zuzanna Magdziak, Monika Gasecka, and Agnieszka Mocek-Płóćiniak	
6	Metal Remediation via In Vitro Root Cultures	101
	María del Socorro Santos-Díaz	
7	Use of Wetland Plants in Bioaccumulation of Heavy Metals	117
	Soumya Chatterjee, Sibnarayan Datta, Priyanka Halder Mallick, Anindita Mitra, Vijay Veer, and Subhra Kumar Mukhopadhyay	
8	A Multi-disciplinary Challenge for Phytoremediation of Metal-Polluted Pyrite Waste	141
	Teofilo Vamerali, Marianna Bandiera, and Giuliano Mosca	
9	Phyto-transport and Assimilation of Selenium	159
	Xiao-Zhang Yu and Ji-Dong Gu	

10	Phytostabilization as Soil Remediation Strategy	177
	Agustina Branzini and Marta S. Zubillaga	
11	Flax (<i>Linum usitatissimum</i> L.) and Hemp (<i>Cannabis sativa</i> L.) as Fibre Crops for Phytoextraction of Heavy Metals: Biological, Agro-technological and Economical Point of View	199
	Miroslav Griga and Marie Bjelková	
12	Transgenic Approaches to Enhance Phytoremediation of Heavy Metal-Polluted Soils	239
	Pavel Kotrba	
13	Phytoremediation Towards the Future: Focus on Bioavailable Contaminants	273
	Gianniantonio Petruzzelli, Francesca Pedron, Irene Rosellini, and Meri Barbaferi
