Preface	v
On the Hochschild and Harrison (co)homology of C_∞ -algebras and applications to string topology	
GRÉGORY GINOT	1
What is the Jacobian of a Riemann Surface with Boundary?	
THOMAS M. FIORE and IGOR KRIZ	53
Pure weight perfect Modules on divisorial schemes	
TOSHIRO HIRANOUCI and SATOSHI MOCHIZUKI	75
Higher localized analytic indices and strict deformation quantization	
PAULO CARRILLO ROUSE	91
An algebraic proof of Bogomolov-Tian-Todorov theorem	
DONATELLA IACONO and MARCO MANETTI	113
Quantizing deformation theory	
JOHN TERILLA	135
L_∞ -interpretation of a classification of deformations of Poisson structures in dimension three	
ANNE PICHEREAU	143
