

Contents

Part A	Introduction to Inborn Errors of Metabolism	1
A1	Disorders of Intermediary Metabolism	3
	Johannes Zschocke	
A2	Disorders of the Biosynthesis and Breakdown of Complex Molecules	7
	Johannes Zschocke	
A3	Neurotransmitter Defects and Related Disorders	11
	Georg F. Hoffmann	
Part B	Approach to the Patient with Metabolic Disease	13
B1	When to Suspect Metabolic Disease	15
	William L. Nyhan	
B2	Metabolic Emergencies	25
	William L. Nyhan	
B3	Patient Care and Treatment	61
	William L. Nyhan and Georg F. Hoffmann	
B4	Anesthesia and Metabolic Disease	63
	William L. Nyhan	
Part C	Organ Systems in Metabolic Disease	67
C1	Approach to the Patient with Cardiovascular Disease	69
	Joachim Kreuder and Stephen G. Kahler	
C2	Liver Disease	89
	Georg F. Hoffmann and Guido Engelmann	

C3	Gastrointestinal and General Abdominal Symptoms	109
	Stephen G. Kahler	
C4	Kidney Disease and Electrolyte Disturbances	117
	William L. Nyhan	
C5	Neurological Disease	127
	Angels García-Cazorla, Nicole I. Wolf, and Georg F. Hoffmann	
C6	Metabolic Myopathies	161
	Stephen G. Kahler	
C7	Psychiatric Disease	177
	Ertan Mayatepek	
C8	Eye Disorders	181
	Alberto Burlina and Alessandro P. Burlina	
C9	Skin and Hair Disorders	197
	Carlo Dionisi-Vici, May El Hachem, and Enrico Bertini	
C10	Physical Abnormalities in Metabolic Diseases	219
	Ute Moog, Johannes Zschocke and Stephanie Grünwald	
C11	Hematological Disorders	233
	Ellen Crushell and Joe T R Clarke	
C12	Immunological Problems	243
	Ertan Mayatepek	
Part D	Investigations for Metabolic Diseases	249
D1	Newborn Screening for Inherited Metabolic Disease	251
	Piero Rinaldo and Dietrich Matern	
D2	Biochemical Studies	263
	Kenneth M. Gibson and Cornelis Jakobs	
D3	Enzymes, Metabolic Pathways, Flux Control Analysis, and the Enzymology of Specific Groups of Inherited Metabolic Diseases	283
	Ronald J. A. Wanders, Ben J. H. M. Poorthuis, and Richard J. T. Rodenburg	

D4	DNA Studies	305
	Johannes Zschocke	
D5	Pathology – Biopsy	311
	Hans H. Goebel	
D6	Suspected Mitochondrial Disorder	325
	Nicole I. Wolf	
D7	Postmortem Investigations	335
	Piero Rinaldo	
D8	Function Tests	339
	Johannes Zschocke	
D9	Family Issues, Carrier Tests, and Prenatal Diagnosis	357
	Johannes Zschocke	
Part E	Appendix	361
E1	Differential Diagnosis of Clinical and Biochemical Phenotypes	363
E2	Reference Books	375
E3	Internet Resources	377
	Index	379
