

Contents

Profiling the microRNAs	1
Kenneth S. Kosik, Thales Papagiannakopoulos, Na Xu, Kawther Abu-Elneel, Tsunglin Liu, and Min Jeong Kye	
The Wide Variety of miRNA Expression Profiles in the Developing and Mature CNS	9
Marika Kapsimali	
Interactions between microRNAs and Transcription Factors in the Development and Function of the Nervous System	19
David J. Simon	
A microRNA Feedback Circuit in Midbrain Dopamine Neurons	27
Asa Abeliovich	
Fine-tuning mRNA Translation at Synapses with microRNAs	35
Gerhard M. Schratt	
Neuronal P-bodies and Transport of microRNA-Repressed mRNAs	45
Florence Rage	
Crosstalk between microRNA and Epigenetic Regulation in Stem Cells	57
Keith Szulwach, Shuang Chang, and Peng Jin	
microRNAs in CNS Development and Neurodegeneration: Insights from Drosophila Genetics	69
Stephen M. Cohen	

***Drosophila* as a Model for Neurodegenerative Disease:
Roles of RNA Pathways in Pathogenesis 79**
Nancy M. Bonini

**microRNAs in Sporadic Alzheimer’s Disease and Related
Dementias 91**
Sébastien S. Hébert, Wim Mandemakers, Aikaterini S. Papadopoulou,
and Bart DeStrooper

microRNA Dysregulation in Psychiatric Disorders 99
Bin Xu, Joseph A. Gogos, and Maria Karayiorgou
