

# Table of Contents

---

## I Relativistic Heavy Ions and DNA Damage

---

A Theoretical Analysis of Visual Distributions of Ionizing-Radiation-Induced Foci in Human Cells by Heavy Ions . . . . .	1
<i>Artem L. Ponomarev and Francis A. Cucinotta</i>	
Multiple CPU Computing: The Example of the Code RITRACKS . . . . .	12
<i>Ianik Plante and Francis A. Cucinotta</i>	
Modeling the Depressed Hematopoietic Cells for Immune System under Chronic Radiation . . . . .	26
<i>Shaowen Hu and Francis A. Cucinotta</i>	

---

## II Image Segmentation

---

Feature-Based Medical Image Registration Using a Fuzzy Clustering Segmentation Approach . . . . .	37
<i>Hassan Mahmoud, Francesco Masulli, and Stefano Rovetta</i>	
A Novel Approach Based on Joint Optimization of Alignment and Statistical Surface Representation with Wavelet Transform for CBCT Segmentation . . . . .	48
<i>Yu-Bing Chang, Peng Yuan, Tai-Hong Kuo, Zixiang Xiong, Jaime Gateno, James J. Xia, and Xiaobo Zhou</i>	

---

## III Proteomics

---

Searching Structural Blocks by SS Exhaustive Matching . . . . .	57
<i>Virgilio Cantoni, Alessio Ferone, Ozlem Ozbudak, and Alfredo Petrosino</i>	
Characterizing Intermediate Conformations in Protein Conformational Space . . . . .	70
<i>Rosanne Vetro, Nurit Haspel, and Dan Simovici</i>	
A Method of Extracting Sentences Containing Protein Function Information from Articles by Iterative Learning with Feature Update . . .	81
<i>Kazunori Miyanishi and Takenao Ohkawa</i>	

---

## IV    RNA and DNA Sequence Analysis

---

Non-coding RNA Covariance Model Combination Using Mixed Primary-Secondary Structure Alignment .....	95
<i>Jennifer A. Smith</i>	
A Study of Compression-Based Methods for the Analysis of Barcode Sequences .....	105
<i>Massimo La Rosa, Antonino Fiannaca, Riccardo Rizzo, and Alfonso Urso</i>	

---

## V    RNA, DNA, and SNP Microarrays

---

Assessing Agreement between microRNA Microarray Platforms via Linear Measurement Error Models .....	117
<i>Niccolò Bassani, Federico Ambrogi, and Elia Biganzoli</i>	
Extracting Key Pathways from Gene Signature and Genetic Aberrations in Subtypes of Cancer .....	132
<i>Peikai Chen, Yubo Fan, Tsz-kwong Man, Ching C. Lau, Y.S. Hung, and Stephen T.-C. Wong</i>	

---

## VI   Semi-Supervised/Unsupervised Cluster Analysis

---

Investigating Distance Metrics in Semi-supervised Fuzzy c-Means for Breast Cancer Classification .....	147
<i>Daphne Teck Ching Lai and Jonathan M. Garibaldi</i>	
Two Covariances Harnessing Fuzzy Clustering Based PCA for Discrimination of Microarray Data .....	158
<i>Mika Sato-Ilic</i>	
Random Matrix Theory and Covariance Matrix Filtering for Cancer Gene Expression .....	173
<i>Leif E. Peterson and Charles E. Ford</i>	
Author Index .....	185
