List of contributors	VIII
Preface	X
<i>John C. Tilton and Robert W. Doms</i> Introduction to entry inhibitors in the management of HIV infection .	1
<i>Laurence Vergne† and Martine Peeters</i> The challenge of HIV sequence diversity in the envelope glycoprotein	17
<i>Stefan Pöhlmann and Michel J. Tremblay</i> Attachment of human immunodeficiency virus to cells and its inhibition	31
<i>Pin-fang Lin, John Kadow and Louis Alexander</i> Inhibitors that target gp120-CD4 interactions	49
<i>Julie M. Strizki and Donald E. Mosier</i> Inhibitors that target gp120 interactions with coreceptor	63
<i>Wei Wang and Carol D. Weiss</i> Inhibitors that target fusion	79
<i>Clyde E. Hart and Tammy Evans-Strickfaden</i> HIV-1 entry inhibitors as microbicides	99
<i>Lynn Morris, Mia Coetzer, Elin S. Gray, Tonie Cilliers, Kabamba B. Alexandre, Penny L. Moore and James M. Binley</i> Entry inhibition of HIV-1 subtype C isolates	119
<i>Eoin Coakley</i> The utility of coreceptor typing in the clinic	133
<i>Sonya L. Heath and J. Michael Kilby</i> Future clinical prospects for entry inhibitors	145
<i>Michael L. Greenberg</i> Enfuvirtide: from basic science to FDA approval	161
<i>Roy M. Gulick</i> Targets for drug development – past and present	179
Index	197
