

# Table of Contents

## Novel Authentication Systems

Evaluating the Usability of System-Generated and User-Generated Passwords of Approximately Equal Security .....	3
<i>Sourav Bhuyan, Joel S. Greenstein, and Kevin A. Juang</i>	
Multicriteria Optimization to Select Images as Passwords in Recognition Based Graphical Authentication Systems.....	13
<i>Soumyadeb Chowdhury, Ron Poet, and Lewis Mackenzie</i>	
Investigating an Intrusion Prevention System for Brain-Computer Interfaces .....	23
<i>Saul D. Costa, Dale R. Stevens, and Jeremy A. Hansen</i>	
Inconspicuous Personal Computer Protection with Touch-Mouse .....	29
<i>Ming-Chun Huang, Wenyao Xu, Jason J. Liu, Yi Su, Lei He, and Majid Sarrafzadeh</i>	
Gamified CAPTCHA .....	39
<i>Junya Kani and Masakatsu Nishigaki</i>	
Recognition of Human Identity by Detection of User Activity .....	49
<i>Giuseppe Scardino, Ignazio Infantino, and Filippo Vella</i>	
Learning a Policy for Gesture-Based Active Multi-touch Authentication .....	59
<i>Raquel Torres Peralta, Anton Rebguns, Ian R. Fasel, and Kobus Barnard</i>	

## Human Factors in Security

Studying the Effect of Human Cognition on Text and Image Recognition CAPTCHA Mechanisms .....	71
<i>Marios Belk, Panagiotis Germanakos, Christos Fidas, George Spanoudis, and George Samaras</i>	
Relationships between Password Choices, Perceptions of Risk and Security Expertise .....	80
<i>Sadie Creese, Duncan Hodges, Sue Jamison-Powell, and Monica Whitty</i>	
Influence of Trust Assurances in Mobile Commerce Applications on the Formation of Online Trust .....	90
<i>Martin Hesseler, Gerhard Hartmann, and Stefan Karsch</i>	

A Comparison of American and German Folk Models of Home  
Computer Security ..... 100  
*Michaela Kauer, Sebastian Günther, Daniel Storck, and  
Melanie Volkamer*

Health Is Silver, Beauty Is Golden?: How the Usage Context Influences  
the Acceptance of an Invasive Technology ..... 110  
*Johanna Kluge and Martina Ziefle*

A Study Using TAM on the Recognition of Individuals’ Privacy and  
the Acceptance of Risk—The Case of Japanese Internet Users— ..... 119  
*Ayako Komatsu*

Personality’s Influence on Facebook’s Privacy Settings: A Case of  
College Students in Taiwan ..... 127  
*Tingya Kuo and Hung-Lian Tang*

An Influence of Self-evaluated Gender Role on the Privacy Management  
Behavior in Online Social Networks ..... 135  
*Kijung Lee and Il-Yeol Song*

A Taxonomy of Cyber Awareness Questions for the User-Centered  
Design of Cyber Situation Awareness ..... 145  
*Celeste Lyn Paul and Kirsten Whitley*

Click Me If You Can!: When Do Users Follow a Call to Action in an  
Online Message? ..... 155  
*Thomas Pfeiffer, Heike Theuerling, and Michaela Kauer*

Increasing Trust Perceptions in the Internet of Things ..... 167  
*Trenton Schulz and Ingvær Tjøstheim*

Perception of Risky Security Behaviour by Users: Survey of Current  
Approaches ..... 176  
*Lynsay A. Shepherd, Jacqueline Archibald, and R. Ian Ferguson*

Understanding People’s Preferences for Disclosing Contextual  
Information to Smartphone Apps ..... 186  
*Fuming Shih and Julia Boortz*

Constructing Positive Influences for User Security Decisions to Counter  
Corporate or State Sponsored Computer Espionage Threats ..... 197  
*Martyn Styles*

**Security and Privacy Policies**

Strategic Stakeholder Interaction Analysis of Cloud-Based Mobile  
Applications Use of Privacy-Sensitive End Users ..... 209  
*Kalliopi Anastasopoulou, Theo Tryfonas, and Spyros Kokolakis*

Essential Lessons Still Not Learned? Examining the Password Practices of End-Users and Service Providers.....	217
<i>Steven Furnell and Nina Bär</i>	
Ethical Issues Surrounding the Asymmetric Nature of Workplace Monitoring.....	226
<i>John D. Bustard</i>	
A Reasonable Expectation of Privacy? Secrecy and National Security in a Democracy.....	236
<i>Kathleen M. Hogan</i>	
Towards Usable Generation and Enforcement of Trust Evidence from Programmers' Intent.....	246
<i>Michael Huth, Jim Huan-Pu Kuo, Angela Sasse, and Iacovos Kiriappos</i>	
Modeling Security Policy and the Effect for End-Users.....	256
<i>Kevin D. Jones and Kizito Salako</i>	
Legal Protection for Personal Information Privacy.....	266
<i>Yinan Liu</i>	
"The Four Most-Used Passwords Are Love, Sex, Secret, and God": Password Security and Training in Different User Groups.....	276
<i>Birgy Lorenz, Kaido Kikkas, and Aare Klooster</i>	
The Privacy Paradox between Users' Attitudes, Stringent Legal Framework and (the Lack of) Adequate Implementation Tools.....	284
<i>Shara Monteleone</i>	
<b>User Centric Security and Privacy</b>	
Addressing User Privacy and Experience in Distributed Long Lifetime Systems.....	297
<i>Scott W. Cadzow</i>	
Secure and Energy-Efficient Life-Logging in Wireless Pervasive Environments.....	306
<i>Alexandros Fragkiadakis, Ioannis Askozylakis, and Elias Tragos</i>	
Supporting Human Decision-Making Online Using Information-Trustworthiness Metrics.....	316
<i>Jason R.C. Nurse, Sadie Creese, Michael Goldsmith, and Syed Sadiqur Rahman</i>	
On the Secure and Safe Data Synchronization.....	326
<i>Pavel Ocenasek and Jaromir Karmazin</i>	

The Practice of Global Internet Filtering . . . . . 332  
*Pavel Ocenasek*

A Privacy-Level Model of User-Centric Cyber-Physical Systems . . . . . 338  
*Nikolaos E. Petroulakis, Ioannis G. Askoxylakis,  
Apostolos Traganitis, and George Spanoudakis*

High-Level Design for a Secure Mobile Device Management System . . . . . 348  
*Keunwoo Rhee, Sun-Ki Eun, Mi-Ri Joo, Jihoon Jeong, and  
Dongho Won*

Factors Influencing Adoption of Encryption to Secure Data in the  
Cloud . . . . . 357  
*Kenneth E. Stavinoha*

Cloudopsy: An Autopsy of Data Flows in the Cloud . . . . . 366  
*Angeliki Zavou, Vasilis Pappas, Vasileios P. Kemerlis,  
Michalis Polychronakis, Georgios Portokalidis, and  
Angelos D. Keromytis*

**Author Index . . . . . 377**
