

Contents

1	Design, Synthesis, Purification, and Characterization of Molecular Beacons	1
	Zhi Zhu	
2	Thermodynamic and Kinetic Properties of Molecular Beacons.....	19
	Lu Peng and Weihong Tan	
3	Application of Molecular Beacons in Real-Time PCR	45
	Chunming Wang and Chaoyong James Yang	
4	Molecular Beacons for Detection of Single-Nucleotide Polymorphisms.....	61
	Mingxu You, Chaoyong James Yang, and Weihong Tan	
5	Molecular Beacons on Solid Surfaces	75
	Tao Chen and Weihong Tan	
6	Functional Materials for Signal Amplification of Molecular Beacons	91
	Da Han and Weihong Tan	
7	Engineering Molecular Beacons for Advanced Applications	107
	Mingxu You, Chaoyong James Yang, and Weihong Tan	
8	Excimer Molecular Beacon	123
	Jin Huang	
9	Strategies for Delivering Molecular Beacons into Cells	139
	Zehui Cao	
10	Molecular Beacons for Intracellular Analysis: Challenges and Successes.....	153
	Colin D. Medley and Zhi Zhu	
11	Molecular Aptamer Beacons	175
	Cuichen Wu, Chaoyong James Yang, and Weihong Tan
