

Contents

Part I Pathologies of Voltage-Gated Calcium Channels

1	Ca_v2.1 Channels and Migraine	3
	Daniela Pietrobon	
2	Ataxia and CACNA1A: Episodic or Progressive?	27
	Stephanie Schorge and Kinya Ishikawa	
3	Role of L-type Ca²⁺ Channels in Sensory Cells	47
	Alexandra Koschak, Alexandra Pinggera, Klaus Schicker and Jörg Striessnig	
4	T-Type Calcium Channels and Epilepsy	77
	Stuart M. Cain, Michael E. Hildebrand and Terrance P. Snutch	
5	The Involvement of Calcium Channel $\alpha_2\delta$ Subunits in Diseases and as a Therapeutic Target.	97
	Annette C. Dolphin	
6	T-Type Calcium Channels in Pain Neuronal Circuits.	115
	Amaury Francois, Anne Pizzoccaro, Sophie Laffray and Emmanuel Bourinet	
7	Ca_v1.1 Channel and Hypokalemic Periodic Paralysis.	135
	Emma Matthews and Michael G. Hanna	
8	Ca_v1.1 in Malignant Hyperthermia	151
	Viktor Yarotskyy and Robert T. Dirksen	
9	Ryanodine Receptor 1 and Associated Pathologies	167
	Julien Fauré, Joël Lunardi, Nicole Monnier and Isabelle Marty	

10	The Lambert-Eaton Myasthenic Syndrome	189
	Paul W. Wirtz, Maarten J. Titulaer and Jan J. G. M. Verschuuren	
11	Alternative Exon Effect on Phenotype of $\text{Ca}_v1.2$ Channelopathy: Implications in Timothy Syndrome.	205
	Hua Huang, Juejin Wang and Tuck Wah Soong	
12	Brugada Syndrome and Voltage-Gated Calcium Channels	225
	Brett Simms	
13	$\text{Ca}_v1.3$ Channels and Sino-Atrial Node Dysfunction	239
	Pietro Mesirca and Matteo E. Mangoni	
14	Auxiliary β-Subunits of L-Type Ca^{2+} Channels in Heart Failure	255
	Jan Matthes and Stefan Herzig	
15	Epigenetic, Genetic, and Acquired Regulation of Ca_v3 T-Type Calcium Channel Expression and Function in Tumor Growth and Progression	277
	Maria Beatrice Morelli, Sonia Liberati, Consuelo Amantini, Matteo Santoni, Massimo Nabissi, Valerio Farfariello and Giorgio Santoni	
16	Pharmacology of Voltage-Gated Calcium Channels in Clinic	297
	Lubica Lacinová and Lucia Lichvárová	
 Part II Pathologies of Transient Receptor Potential Channels		
17	TRPM1 and Congenital Stationary Night Blindness	317
	Shoichi Irie and Takahisa Furukawa	
18	Alterations in TRPM2 and TRPM7 Functions in the Immune System Could Confer Susceptibility to Neurodegeneration	333
	Meredith C. Hermosura	
19	TRPML Channels and Mucopolidosis Type IV	365
	Christian Grimm and Math P. Cuajungco	
20	Transient Receptor Potential Channels and Pain	381
	Alexandre Denadai-Souza and Nicolas Cenac	

21	Hereditary Channelopathies Caused by <i>TRPV4</i> Mutations	413
	Jeremy M. Sullivan, Thomas E. Lloyd and Charlotte J. Sumner	
22	TRPC Channels in Cardiac Hypertrophy	441
	Nadine Kirschmer, Kristina Lorenz and Petra Eder-Negrin	
23	Role of TRPC and Orai Channels in Vascular Remodeling	463
	Michael Poteser, Sarah Krenn and Klaus Groschner	
24	TRPP2 in Polycystic Kidney Disease	491
	Andrew Streets and Albert Ong	
25	TRPM6 and Hypomagnesaemia/Hypocalcaemia	523
	Daniel Landau and Hanna Shalev	
26	TRP Channels in Prostate Cancer	533
	George Shapovalov, Roman Skryma and Natalia Prevarskaya	
27	Pharmacology of TRPV Channels	549
	Ulrich Wissenbach	

Part III Pathologies of Ligand-Gated Calcium Channels

28	IP₃ Receptors in Neurodegenerative Disorders: Spinocerebellar Ataxias and Huntington's and Alzheimer's Diseases	579
	Masayoshi Tada, Masatoyo Nishizawa and Osamu Onodera	
29	RyR2 in Cardiac Disorders	601
	Ineke Nederend, Christian van der Werf and Arthur A. M. Wilde	
30	P2X Receptors and Pain	615
	François Rassendren and Lauriane Ulmann	
31	P2X7 in Bipolar and Depressive Disorders	635
	Melissa L. Barron, Eryn L. Werry, Iain S. McGregor and Michael Kassiou	
32	Targeting NMDA Receptors in Epilepsy	663
	Mehdi Ghasemi and Ahmad Reza Dehpour	

33 Nicotinic AChR in Congenital Myasthenic Syndromes 695
Francesca Grassi and Sergio Fucile

34 CatSper in Male Infertility 713
Takuya Nishigaki, Ana Laura González-Cota
and Gerardo José Orta Salazar

Index 729
