

Table of Contents

Critical Health and Intelligent Systems in Medical Research

Pervasive and Intelligent Decision Support in Critical Health Care Using Ensembles	1
<i>Filipe Portela, Manuel Filipe Santos, José Machado, António Abelha, and Álvaro Silva</i>	
C-Grid: Enabling iRODS-based Grid Technology for Community Health Research	17
<i>Nitin Sukhija and Arun K. Datta</i>	
Local Pre-processing for Node Classification in Networks: Application in Protein-Protein Interaction	32
<i>Christopher E. Foley, Sana Al Azwari, Mark Dufton, Isla Ross, and John N. Wilson</i>	

Obstetrics, Neonatology and Decision Systems in Cardiology

Automatic Evaluation of FHR Recordings from CTU-UHB CTG Database	47
<i>Jiří Spilka, George Georgoulas, Petros Karvelis, Vangelis P. Oikonomou, Václav Chudáček, Chrysostomos Stylios, Lenka Lhotská, and Petr Janků</i>	
Maternal and Neonatal Healthcare Information System: Development of an Obstetric Electronic Health Record and Healthcare Indicators Dashboard	62
<i>Juliano Gaspar, Junea Chagas, Gabriel C. Osanan, Ricardo Cruz-Correia, and Zilma Silveira N. Reis</i>	
Data Acquisition and Storage System in a Cardiac Electrophysiology Laboratory	77
<i>Matěj Hrachovina, Michal Huptych, and Lenka Lhotská</i>	
Proposing a Novel Monitoring and Early Notification System for Heart Diseases	88
<i>Efrosini Sourla, Athanasios Tsakalidis, and Giannis Tzimas</i>	

Poster Session

Automatic Microcalcification Segmentation Using Rough Entropy and Fuzzy Approach	103
<i>Burçin Kurt, Vasif V. Nabiyeu, and Kemal Turhan</i>	
A Model for Analyzing the Relation between Potassium (K) and Hemolysis Index (HI) with Clustering Method	106
<i>Yasemin Zeynep Engin, Kemal Turhan, Sabiha Kamburoğlu, Asım Örem, and Burçin Kurt</i>	
A Secure RBAC Mobile Agent Model for Healthcare Institutions - Preliminary Study	108
<i>Cátia Santos-Pereira, Alexandre B. Augusto, Ricardo Cruz-Correia, and Manuel E. Correia</i>	
Adaptive Model of Cardiovascular System: Realization and Signal Database	112
<i>Jan Havlík, Miroslav Ložek, Matouš Pokorný, Jakub Parák, Petr Huňka, and Lenka Lhotská</i>	
Author Index	115
