

Contents

1	Introduction	1
1.1	General Information	2
1.1.1	Diversity of MTB	2
1.1.2	Distribution of MTB	5
1.1.3	Molecular Mechanism of MTB Biomineralization	5
1.1.4	Magnetic Properties of MTB and Magnetosomes	6
1.1.5	Fossil Magnetosomes and Paleoenvironmental Reconstruction	8
1.2	Aims and Motivation	8
1.3	Outline of this Thesis	9
	References	9
2	Enrichment, Purification and Characterization of Environmental Magnetotactic Bacteria	15
2.1	Introduction	15
2.2	Novel Apparatus and Strategy for MTB Enrichment	16
2.3	Specific Primers for Freshwater <i>Alphaproteobacteria</i> Magnetotactic Cocci	20
2.4	<i>In silico</i> Evaluation of Restriction Endonucleases for RFLP Analysis of MTB	23
	References	28
3	Diversity of Magnetotactic Bacteria and Its Environmental Implications	31
3.1	Introduction	31
3.2	Materials and Methods	32
3.2.1	Sampling Sites	32
3.2.2	Physical–Chemical Analyses	32
3.2.3	Magnetic Collection of MTB	34
3.2.4	Transmission Electron Microscope Observation	34
3.2.5	PCR, Cloning and DNA Sequencing	34

3.2.6	Phylogenetic Analysis	35
3.2.7	Fluorescence <i>In Situ</i> Hybridization	35
3.2.8	Statistical Analyses	36
3.3	Results	36
3.3.1	MTB Cell Morphologies and Magnetosomes	36
3.3.2	Phylogenetic Diversity of MTB	37
3.3.3	FISH Analysis of MTB Population from Yuandadu Park	38
3.3.4	Spatiotemporal Variation of MTB Communities from Lake Miyun	40
3.4	Discussion	44
	References	47
4	Metagenomic Analysis of Uncultivated Magnetotactic Bacteria Within the Phylum <i>Nitrospirae</i>	51
4.1	Introduction	51
4.2	Materials and Methods	52
4.2.1	Sampling and Collection of MTB	52
4.2.2	Preparation of High Molecular DNA for Library Construction	53
4.2.3	Fosmid Library Construction, Screening and Sequencing	53
4.2.4	Fosmids Annotation and Phylogenetic Analyses	54
4.2.5	Oligonucleotide Probes and Fluorescence <i>In Situ</i> Hybridization	55
4.2.6	Transmission Electron Microscope (TEM)	55
4.2.7	Nucleotide Sequence Accession Numbers	55
4.3	Results	56
4.3.1	Library Construction and Screening	56
4.3.2	Analyses of Five Fosmid Clones	56
4.3.3	<i>In Situ</i> Characterization of “Ca. Magnetobacterium bavaricum”-Like Bacteria	59
4.4	Discussion	59
4.5	Conclusions	62
	References	62
5	Magnetic Properties of Uncultivated Magnetotactic Bacteria	67
5.1	Introduction	67
5.2	Materials and Methods	68
5.2.1	Sample Sites and MTB Collection	68
5.2.2	Transmission Electron Microscopy Observation	68
5.2.3	Magnetic Measurements of MTB	68

5.3	Results	69
5.3.1	Room-Temperature Properties	69
5.3.2	Low-Temperature Properties.	71
5.4	Discussion	72
	References	76
6	Concluding Remarks	79
	Appendix	81
